BELLEVILLE, SATURDAY, JUNE 1.

City and Vicinity.

CITY COUNCIL.—Special meeting on Mon-
day night, the Dominion Day celebra-
tion.
"THE YELLOW TIE."—A beautiful illus-
trated weekly will appear in Rose-Bellford's
Canadian Monthly for July.

ASSEMBLY.—No. 2 House Company intend
holding an Assembly in the City Hall on
the evening of Dominion Day.

CRAMPS OF THE STOMACH AND BOWELS CURED
BY SAMPSON'S LAXATIVE PILLS.

WILKIE COLLINS begins his great Story—
"The Hound of the Baskin's." A Mystery of
Modern Venice, in the July Number of
Rose-Bellford's Canadian Monthly.

CHRIST CHURCH.—The Rev. Mr. Jones
leaves town on Monday for a few weeks,
for the benefit of his health. The Rev.
Mr. Moton, of Michigan, U.S., will take
the duty till his return.

TAIL GRASS.—Mr. A. R. Gilbert brought
in a few stalks of rye, measuring seven
feet two inches, and barley three feet in
length. This is pretty tall grain for the
first of June.

STIRLING.—The Rev. F. M. Finn, Epis-
copal Methodist Minister at Stirling, who
enjoyed the highest expectation of going to
Montreal for his future home, has been
appointed by the Council to be later
another year at his present mission.

MARINE.—The ship M. O'Connell is
discharging coal at Campbell & Co.'s. The
ship M. O'Connell, of Dexter, is loading
lumber at Sill's dock. The ship M. O'Connell,
of Dexter, is loading lumber at Sill's dock.

ACCIDENT.—On Thursday last, whilst
Mr. Samuel Hall, jr., of Thorvald,
was leading a horse, the halter by some
means became entangled in his leg, and the
animal giving its head a sudden jerk,
Mr. Hall was thrown to the ground, break-
ing one of his legs.

PERSONAL.—G. A. Simpson, Esq., P.L.S.,
has been in town for the past few days on
a brief visit to his friends. In a few days
he will start for St. John's, and will be
appointed by the Council to be later
another year at his present mission.

ALBERT COLLIER.—The examinations are
progressing, and the end of the term will
soon arrive. The College has been more
largely attended during the term now clos-
ing than ever before. This speaks well for
the management of the able President, Dr.
Jaggar, who works incessantly to promote
the success of the institution.

TAIL GRASS.—We were shown some cor-
d grass grown by Mr. George En-
bury near Thorvald, which looked but
little of four feet high, which is cer-
tainly remarkable for this time of the year,
but it is beaten by a specimen sent by Mr.
Rankin, Collins' Bay, which measures 4 ft.
6 in. high.

THE GRAMMERS' PICNIC.—The excursion
of the Grammers, which took place to-day,
was favored with fine weather and a very
large attendance, the steamer *Harbour*,
being crowded on leaving port, whilst a
considerable number who arrived too late
were left behind. The Oldfellers' band
accompanied the excursion.

VITAL STATISTICS.—The vital statistics of
the city, as registered for the month of May,
were: Births 36; Marriages 7;
Deaths 17. Of the deaths there were 10
diphtheria; 5 accidental deaths; still born 2;
dyspepsia 1; inflammation of the bowels 2;
heart disease 1; inflammatory croup 1;
kidney disease 1; consumption 1; convul-
sion 1.

CRICKET.—The return match between the
Married and Single members of the Belleville
Cricket Club was played yesterday afternoon.
Neither side was able to present a
full eleven, and under the circumstances
the married men won by a majority of 10
runs. They are thus the winners of the
first, having won the first game and lost the
second.

MERCEDON CLUB.—The first quarterly
open meeting in connection with the Club
will be held in the City Hall on Tuesday
evening next, 4th inst. Prof. Bell will
deliver an address on the Theory of Evolu-
tion and its Evidence, and Mr. Dawson,
Head Master of the High School, will give
a series of astronomical demonstrations, il-
lustrated with illuminated views of the
heavenly bodies, by Mr. John Irwin, Head
Master of the Central School. Tickets
can be had from the County Agent, or from
the Club, and at the book stores. The Mar-
ried Club, which has already done much
for the popularization of science in this
community, is entitled to the thanks of the
public for this further laudable effort in the
same direction.

CHEESE.—The price of cheese has fallen

to 50c per 112 pounds in the Liverpool
market.

INSURE REVENUE.—The collections made in
the Belleville division for the month of
May, were as follows: Spirits \$3,083.03,
Tobacco \$867.20, Salt \$2,000.00, Total
\$5,950.23. Corresponding period of last
year \$5,470.73. Decrease \$1,144.54.

SPECIAL HONORS.—At the recent Special
Honors Examination of the Law School at
Osgoode Hall, Toronto, Mr. D.B. Duggan,
formerly of Meigs, Duggan & Co., suc-
ceeded in taking first-class honors, and the
Benchers have struck a year of his time of
serving as a student before being called to
the Bar. We congratulate Mr. Duggan upon
his success.

YESTERDAY'S "ACCIDENT."—We are
saddened to state that the young man Abraham,
who was run over by the chemical engine
yesterday, was not knocked down by the
engine, but that he was on the side-
walk, where it ought not to have been.

STAMPAK ENTERPRISE.—We learn from
the Campbellford Herald that Mr. Bance
has successfully conveyed to the water's
edge the little steamer which he has been
convinced that the most valuable French
township for over a year past. His idea
is to fit out the boat with an engine and
boiler, and make trips in the navigable
waters of the Trent River, between Chis-
cous and the Port of the Trent. The
boat has not yet taken place, but her owner ex-
pects to set her about at an early day.

ANNIVERSARY.—To-day is known in
English naval annals as "the glorious first
of June," as on June 1, 1794, Lord Howe
gained a signal victory over the French
fleet in the Atlantic off the coast of
France. The effect of the glorious exertions
of the seamen was, however, rendered al-
most nil by the Admiral's wasting time in
securing worthless prizes instead of inter-
cepting one of the most valuable French
convoys that ever crossed the ocean, which,
though it was at the mercy of the British
fleet, with proper vigilance, could safely in-
tercept without the loss of a ship.

BELLEVILLE INAGURATION.—The Naphees
Express makes the following kindly sugges-
tion: "We see that the City Fathers of
Belleville have passed a resolution voting
\$500 as the limit of expenditure for the in-
augural demonstration which takes place on
Dominion Day. No doubt that amount will
be increased by private subscription. We
trust that this sum will be a small one in
the celebration, and make it the bigger day
of the old town ever saw. Would it
not be a good idea for the people of our
town to make arrangements to go up and
assist by their presence, in making
the affair a decided success?"

REVISION OF THE WEEKLY HEBREW BOOK.
A contemporary says: "Early in June a
special committee of fifteen (appointed by the
last General Conference of the Methodist
Church in Canada) will meet in Quebec for
the purpose of considering what it is best to
do with the Hebrew Bible, which is now
denominated. It is understood that there
are several proposals to be laid before the
committee. These include the revision of
the present book and the substitution of
the book of the English. The committee
will report to the General Conference, which
meets in Montreal in September next."

ARM BROKEN.—The Lindsay *Warrior*
says: "As Mr. T. J. Jellott, composer in
the *Warrior* office, was driving along Kent
street with his niece on the afternoon
of the 29th inst., he was struck by a
team of horses, and when he was thrown
to the ground, he was severely injured. He
was taken to the hospital, and is now
in a dangerous condition. It is feared that
he will not recover."

TESTIMONIAL FROM CAPT. JOSHUA
HARTER.
SAYVILLE, N.B., Feb. 13, 1877.
J. H. Ross, Esq., St. John, N.B.
Dear Sir:—Early in October last I took
a severe cold which settled on my lungs.
After having a bad cough for about six weeks,
I had a severe attack of bleeding from my
lungs, while on a voyage from Quebec to Dover.
I had daily spells of bleeding for several
days, and at last, after a long and painful
struggle, I was able to land at Dover, where
I was taken to the hospital, and I received
such medical assistance as enabled me to get
home.

I saw an advertisement of your *Phosphoric
Acid Liver Oil Emulsion* in a paper, I im-
mediately ordered a bottle, and after taking
it for a few days, I feel myself a well man.

Two Deaf Mutes Joined in Marriage Yesterday Dr. Gallaudet's Church.

(From the N. Y. World.)

At St. Ann's Church in Eighteenth street, where the Rev. Dr. Gallaudet has labored so long and so successfully, the wedding of two deaf mutes, was celebrated yesterday by two members of the Church Society, and also what their pastor has called "The Silent Community."

The ceremony was well attended, not only because of its novelty, but also because of the interest of the deaf mutes, who were present in great numbers, and who were all well educated, and who were all well to do.

The bride and groom were both deaf mutes, and were both well educated, and were both well to do.

The bride and groom were both deaf mutes, and were both well educated, and were both well to do.

To be Assistant Surgeon: The Hon. Henry Dumble, Esquire, M. D., vice Burdett, promoted.

"CREAK."

The letter from the Mayor of Kingston asking that the civic celebration in this city be postponed, which letter was read in Council last night, was rather a cheeky piece of business, especially taking into consideration the circumstances.

The celebration here was determined upon some long ago as December last, shortly before Belleville became a city, as no demonstration in honor of the inauguration of civil government could be made successfully in winter. Kingston had no unusual cause for celebrating Dominion Day this year, whilst Belleville has, therefore it would have been more appropriate for the former place to have given way than to have demanded the request preferred by Mayor McIntyre.

BEAR CACON.

The Campbellford Herald says: "Mr. M. H. Hubble, an old veteran hunter of Superior township, has had many an encounter with the wild denizens of the forest, succeeded in capturing a full-grown bear, about a mile and a-half back of Healey Falls, a short time ago. The people of that neighborhood were much aware of the animal's presence, by its hollowing a steer belonging to Mr. Jas. Frauts. Not long after, Mr. Hubble, in company with Peter Loucks, Jr., and Robert Aikens Jr., set out and gave chase to the animal, which they afterwards discovered had a partner. Being unable to discomfit the foot-prints only, they constructed a 'pitfall,' a contrivance for the capture of these animals, baited it with a tempting morsel, and were delighted upon returning, some time afterwards, at finding Mr. Hubble firmly wedged between the logs of the 'fall' quite dead."

COMMITTED FOR TRIAL.

MONTREAL, June 4.—The police magistrate has committed Jas. Bennett of the Herald and E. H. Goff for trial on Queen's Bench, for conspiracy to libel ex-Solicitor General Baker.

DUNK.

Mr. Blake has declined the Grit nomination for South Bruce and West Durham. He gives his reason that the state of his health will not permit him to undertake the duties of a candidate. It would appear from this that the hon. gentleman intends to withdraw from public life, at least for the present. So far as South Bruce is concerned, it is certain of selecting a Conservative at the next election; as to West Durham, that constituency is Gritty enough to guarantee the return of any Grit.

WEATHER REPORTS.

TORONTO, June 4.—Probabilities for the next twenty-four hours: For the Lower Lake region, fresh to brisk westerly to north westerly winds, fair weather with possibly thunder storms in some localities. For the St. Lawrence, fresh southerly to westerly winds, and fair to cloudy weather with rain areas. For the Maritime Provinces, moderate to fresh southerly to westerly winds, fair weather with local showers.

Warmer, with cool winds; at night cloudy, possibly thunder storms.

Testimonial from Capt. Joshua Harper.

SACKVILLE, N. B., Feb. 13, 1877.

Dear Sir:—Early in October last I took a severe cold which settled on my lungs. After having a bad cough for about six weeks I had a severe attack of bleeding from the lungs, which on a voyage from London to New York I had daily spells of bleeding for some days, until I lost about two gallons of blood, and was so weak and exhausted that I could not get back to Queenstown, where I received such medical assistance as enabled me to get well.

I saw an advertisement of your Phosphoric Acid Liver Oil Emulsion, a page in the Standard immediately sent and got a half dozen bottles, after taking which I felt much better.

My weight, which was reduced to 120 pounds, is now up to my usual weight, and I feel much better than I did when I first began to take your medicine.

I am, very truly, Yours,

(Signed) J. HARPER.

THE EASTERN QUESTION.

MIDNIGHT DESPATCHES.

LONDON, June 3.—In the House of Commons papers in regard to the Congress were laid on the table. Sir Stafford Northcote stated that the documents embracing the invitation of Germany to a Congress in Berlin on the 13th of June for the free discussion of the Treaty of San Stefano, and Lord Salisbury's acceptance of Germany's invitation with the explanation that England understood that all the Great Powers are asked to attend to the free discussion of the documents, and the subject dropped.

The Chancellor confirmed the announcement that Lord Beaconsfield, Salisbury, and Odo Russell will represent Great Britain in the Congress.

The House of Lords today Lord Granville heartily congratulated the House and the Government that the San Stefano Treaty was about to be discussed by the Powers in Congress, but both Lord Granville in the House of Lords and the Marquis of Hartington in the House of Commons, expressed the selection of England's representatives to the Congress, on the ground that it was inexpedient for the Premier and the Foreign Secretary to be absent from the House of Commons.

The Marquis of Hartington also explained that this arrangement leaves England's representatives uncontrolled either by the Cabinet or by Parliament.

The matter not pushed to any issue, the objections being met by Earl Beaconsfield in the Lords, and by Sir Stafford Northcote in the Commons, and the subject dropped.

The Emperor of Germany's invitation to the Congress, presented by the German Ambassador to Lord Salisbury, and accepted by him, proposes to the Powers who are signatories of the treaties of 1856 and 1871, to meet in Congress at Berlin to discuss the stipulations of the preliminaries of the Treaty of San Stefano, concluded between Russia and Turkey. The Government of His Majesty, in giving this invitation to the Government of Her Britannic Majesty, consents to submit the free discussion of the whole of the contents of the Treaty of San Stefano, and that it is ready to participate therein.

In the event of the acceptance of all the Powers in the Government of His Majesty proposes to go to the meeting of the Congress for June the 13th.

Sanitary Science.

In our last article we proved the importance of thorough drainage, and the removal of all noxious matters, as necessary to the health of the population; and that if the sewers were properly carried out pure air would be secured, as a matter of course.

But there is another very important requisite necessary for the maintenance of health, and that is a full supply of pure water, often a very difficult matter to secure, especially in towns where the only source of supply is that derived from wells which are only too often polluted with the filtration of sewage matter, surface water drainage from cesspools, and other impurities.

It has been often said, "Sin had brought disease into the world, and the Almighty permitted the outbreak of diarrhoea in order

BY-LAW No. 1

A BY-LAW TO BORROW THE SUM OF TWENTY THOUSAND DOLLARS ON BEHALF OF THE COUNTY OF HASTINGS, FOR THE PURPOSE OF MAKING PAYMENT OF CERTAIN CLAIMS OF THE GRAND JUNCTION RAILWAY COMPANY, AND OF THE REPAYMENT OF MONIES DRAWN FROM THE COUNTY SINKING FUNDS.

PASSED

WHEREAS it is necessary and expedient that the Corporation of the County of Hastings should borrow the sum of Twenty Thousand Dollars, under the authority of the Corporation, for the purpose of making payment with the provisions of Chapter 174, Section 3, of the Statutes of Ontario (38 Victoria, cap. 48, section 231), the said Corporation do hereby make and enact the following provisions, to have effect in relation to certain claims of the Grand Junction Railway Company, and of replacing monies drawn from the County Sinking Funds:

AND WHEREAS, the total amount required to be raised annually by special rate to be levied on the shareholders to be issued under this By-law and the special rate to be levied on the said shareholders at the rate of six per centum per annum on the said rate respectively became due in the period of twenty years, it is Two Thousand and twenty dollars.

very far wrong. "Sin has much to do with diarrhoeas, especially in the tropics, but it is not the cause of them. The water is impregnated with sewage matter, and the patient satisfies itself with referring the judgment to the gods."

However good the natural state of a spring may be, where no drainage exists, the water becomes gradually filled with noxious matter, and the water is rendered unfit for drinking. A great depth, and carefully puddled sides, prevent the access of surface water and insure filtration of the water from the surface of the bearing strata is met with, so much so that even when the water in the wells becomes polluted, the water is not contaminated. A fruitful source of pollution being unaltered, the receiving of drainage from cesspools.

To show how very easily diseases may be contracted from drinking water, I will give the following instance, which happened in a short time ago, in Manchester, England. A young man, who was employed in a factory, was sometimes absent from his work, and was engaged in investigating the cause of a disease which was clearly traced to a dairy, to which he was supplied with water. He was supplied with water supply of which ran so close to some cesspools, that the water was contaminated by sewage. This sewage-charged water, he used in cleaning the vessels used in the

County of Hastings, according to the last report of the Auditor, is eleven millions nine hundred and thirty-one dollars and thirty cents.

AND WHEREAS, the whole debt of the municipality of the County of Hastings is as follows, that is to say: for principal the said County of Hastings is indebted to the holders of the said bonds for the sum of \$1,000,000; and there is no interest money due thereon, and said indebtedness may be reduced by the said County of Hastings in the sum of \$100,000 in sinking funds.

AND WHEREAS, the amount of special assessments levied by the County of Hastings during an equal yearly sinking fund for paying the said principal sum of Twenty Thousand Dollars is \$100,000, and the rate of one cent on the dollar upon all the rateable property aforesaid within the limits of the Municipality of the County of Hastings, is a sufficient source of revenue for the purpose of the payment of any increase of assessment or interest thereon;

BEFORE the Board of the Corporation of the County of Hastings, through the County Council, that the Wardens and Townships, for the time being, of the said County of Hastings, are authorized to borrow money, to empower, and to issue the debentures of the Corporation, to allow the Corporation to borrow money, and to issue the debentures of the said Corporation, shall bear interest at the rate of five per cent per annum, and the rate of the said tax shall be five per cent on the value of the rateable property.

In small towns unless most advantage could be taken of the situation, both as regards water supply and sewage disposal, the sewage matter, composed as it is of human excreta, and, indeed, if proper care is taken in constructing them, by making them so tight that although it is not possible to prevent the contents from passing into the ground, it is possible to prevent any escape of the gases generated—may be rendered nearly harmless, but this is very seldom done.

Be it further enacted that the debentures to be issued by virtue of this By-law, shall be payable at the period of twenty years, and that the term of the date hereof, and that the interest on the same shall be payable at the rate of half per centum per annum, and that the said debentures shall have attached coupons attached, payable at the rate as said, and half yearly as aforesaid.

Be it further enacted that there shall be raised, levied and collected on all the rateable property aforesaid, of the said Corporation of London, the sum of one hundred and one fifty-fourth part of one cent on the pound over and above all other rates or assessments, and that the said sum shall be applied to the interest on the said debentures at maturity the said By-law authorized to be made.

Be it further enacted that this By-law come into force, and have effect on, from and after the twenty-first day of June, in the year of our Lord one thousand eight hundred and seventy-eight.

thru the pollution of the air, and by the poisoning of the wells fed from the underlying strata. It is not only the underlying strata, and even, if he were to be permitted, to maintain such a source of injury to his own family, his neighbors have a right to insist that he shall not endanger them.

This is essentially a question of health and life, for there is no doubt whatever that "the well are made sick and the sick are made worse for the simple lack of pure water."

The interest confined to individual members to one section of society, for everything that affects the health of one member of the community *affects all* in more or less degree, and practically the spread of diseases, especially preventable diseases, is due to the lack of pure water; thus the health of each is important to all, and all must join in securing it, and the public concern is the same as the individual's.

The Wool Trade.

A BAD OUTLOOK FOR SHEEP FARMERS.

The wool business for the season of 1875 has been inaugurated with gloomy prospects for the wool growers of the country. Wool prices are about 10 per cent lower than on the trade, as it may be brought to. As the American market looks ours to a considerable extent, the following letter from J. H. Johnson & Co., wool commission merchants, of Philadelphia, will be read with interest:—

PHILADELPHIA, May 10th, 1875.

DEAR SIR,—Since our circular of May 1st, 1875, you are doubtless aware that wool prices have generally held firm from buying decisions they have believed that a further decline was probable. Prices are now so low that the sheep raiser is almost unable to dispose of his flock. More activity is noticeable, and some of the large lots of fine fleeces have been taken out of the market by consumers who were

large other fine breeds. The X grade is a large supply and moves slowly at 574c. The Y grade is dull at 574c. The Z grade and must be sold at 574c for the latter price. The combing branch of wool manufacture, which has been active during the past few months, has not been successful. Business here was unsatisfactory, has not yet begun to clear in the general depression. Combing fleeces have, in consequence, been sold at 574c. The X grade sold more than any other quality. Washed Canada combing costing 50c. landed here in July, and which sold then at 55c, in consequence of the depression, is now selling at 57c for coarse long combing are corresponding low. On this account the opinion is gained that the X grade is not worth the price of worth little if any more than that of the present of clothing. That grade which is staple is best sustained in the long wool market. The X grade is the best, and is nearly or quite, half of all the blood. THE EDINBURGH REVIEW (1789),
THE WESTMINSTER REVIEW (Liberal),
THE LONDON QUARTERLY REVIEW (Conservative),
THE BRITISH QUARTERLY REVIEW (Bourgeois),
AND
BLACKWOOD'S EDINBURGH REVIEW.

These Reprints are not selections; they are the originals in full, and at about one-third of the price.

The latest advances and discoveries in the arts and sciences, the recent additions to knowledge in every department of literature, and the new publications as they issue from the press, are all faithfully and judiciously selected from the pages of these periodicals, in language as clear and simple as possible, and in a style comprehensive. The articles are commonly more judicious and more useful than the average books of the period.

Washing Clothes.

BY LEONORE GILLEN.

"I have such poor luck in laying clothes," remarked a neighborly person, not long since, "the more I wash, the more I have to pay to make up. Now, I can't see but that dress you wore in summer is about as bright as it can be. I don't see how you can get rid of the selection of colors than I have."

"Perhaps it is in the washing," I replied. "I don't know, but I have been told that colors, for I dislike to wear a bold dress, and a little color is taken the more I wash. I have been told that is so."

"Oh no, it isn't that," she said, laughing. "I have been told that is so, but I have nothing that would stand washing at least in summer, but look how faded it is."

"I have been told that is so," I replied. "The very next week I noticed that persimmon was out to dry. I don't know anything about it, but I have been told that is so."

"I have been told that is so," she replied, reaching over the clothes-horse, with the light she turned up toward the glaring sun, and her customer standing at 54 in the shade. "I want to know if you have any colored goods that's about the way I would take to do."

the sun in hot weather. Anything that is particularly about, I manage to dry in the sun during the winter. Thus by taking a little plain and simple dress, I can make it appear to be kept bright looking while the last must be a very poor piece indeed that last, if, I wished as suggested.

Last summer a neighbor had six new suits made of calico. The were all cut with basque and the skirts were trimmed with satin ribbon, with ruffles and knife plaits, and were very elegant. She would wear one suit a week or so, replacing it on in the morning when she first got up, and then put it in the wash, from which it would emerge, in the hands of an inexperienced hired girl, and be thrown, untroubled, over the fence and picket, and so on.

Now, I have not one of these dresses was fit to wear. Some people appear to wear out their clothing so fast, when it is more in the washing than in the actual use.

BELLEVILLE, SATURDAY, JUNE 8.

The Fisheries Report.

The annual report of Mr. W. F. Whittier, Commissioner of Fisheries, is a bulky volume. It appears from it that the value of the fish caught in Canadian waters by the Canadian fishermen in 1877 was \$12,129,887—an amount of the value of the corresponding catch in 1876 of \$8,827,367. The progress thus shown is in harmony with the development of this great branch of industry in several years preceding.

The value of the fish exported from Canada in 1877 is not set at \$7,009,400—showing an increase over the export of 1876 of \$1,402,831. About one-half of the whole exported went to the United States. The fish imports of the year were valued at \$1,329,530. Nearly two thirds of these came from the United States. The volume contained an elaborate lithographic view of the Dominion fish-hatchery at Newcastle, Ontario, and also an interesting representation of the fish-breeding establishment on the Miramichi. The character of the general contents of the volume may be understood from the outline following:

Exportation of Fish—Importation of Fish—Fresh Fish Trade—Comparative Statement of the Produce and Value of the Canadian Fisheries for the years 1876 and 1877—General Recapitulation of the Yield and Value of Canadian Fisheries for the year 1877—Yield and Value of Canadian Fisheries from 1869 to 1877—Exports of Fish from Canada during the year ending 31st December, 1877—Imports of ditto for same period—Exports of Fish from Canada for the six months ending 31st December, 1877—Imports of ditto for same period—Expenditure and Receipts—Licenses Issued—Staff of Fishery Officers—Reports of Fishery Officers—Salmon Angling—Fish Culture—Extension of Fish-hatching—Objectionable Modes of Fishing—Shell-fish Fishery—British Columbia and Manitoba—Sawdust and Mill-rubbish—Fisheries Staff.

From the report we learn that in the Prince Edward and Bay of Quinte division, which includes all stations from Carrying Place to Point Pleasant, and from Twelve o'clock Point to Tyndings, there are employed 2 fishermen of 10 tons, valued at \$600 and carrying 4 men, 114 boats of the value of \$4,771, employing 420 men. The number of gill nets used was 838, and of rods 23,300 valued at \$5,183; of seines 48, rods 3,216, valued at \$6,300; and of hoop nets, 47, of the value of \$1,910. The produce of these fisheries was of whitefish 301 bbls.; trout 773 bbls.; herring 1,980 bbls.; mackinnow 10 bbls.; bass 11 bbls.; pike 73 bbls.; pickerel 248 bbls.; coarbie fish, 1,093 bbls.; the whole footing up, 6,131 bbls. of fish valued at \$42,617.

The report of Overseer Wilkins states that the yield of the fisheries in his division shows a decrease when compared with that of last year, and attributes this to uniform hot and dry weather prevailing during the summer, which caused the fish to come in from the shores and seek deeper and cooler water. He also reports having inspected all the fisheries in his division and found them in good order. Large salmon were seen in the Mira, Trent and Salmon Rivers, the result of the dry weather of the previous year. We may add that several good sized young salmon have been caught in St. Marys and Moira Lakes, and that a few were caught in the Bay last fall, while numerous smelts were observed at the ice holes during the winter.

The figures above given are interesting, as showing that the fishing industry in this section is a much more important one than many people imagine.

NOT FOOD FOR REFLECTION.—In its issue of the 3rd instant, under the heading of "taut notes," the Globe tells its readers: "The Buffalo Courier devotes a column to the description of a new sewing machine factory started in that city by the Wanzer Company, of Hamilton. This is carrying the war into Africa with a vengeance, and if some other manufacturers who now sit with folded hands waiting for better times were to show as much energy in pushing their business as they do in complaining of the prevailing depression and the hardness of their lot, they would be as successful as the Wanzers." Nobody but a theory-monger free-trader could be foolish enough to see in the establishment of a manufactory in the United States matter for rejoicing by Canadians. What the advocates of a protective tariff in Canada are contending for is encouragement for manufacturers to establish their workshops and expend their money in Canada—not in the United States. Every dollar of capital withdrawn from business in Canada and every dollar is deported hence to the United States is plainly so much loss to the Dominion and a corresponding gain to our neighbors. A few more such victories and we are undone.

EXPORT OF FERTILIZERS THIS SEASON.—The Montreal Journal of Commerce says: "From the opening of navigation till the 28th of May there were shipped from the St. Lawrence for the European market 1,280 tons of phosphate. Of this quantity 625 tons were sent by barge to Quebec, and there loaded on board ship; the balance, 350 tons, was shipped from Montreal to Liverpool direct. To this may be added 900 tons sent by the St. Lawrence, by rail during the winter months to their artificial manure factory at Green Point, N. Y., making the total amount shipped from the Ottawa district since January 1, 1878, 2,180 tons. It is estimated that the shipments to the St. Lawrence to Great Britain and continental markets during the season will reach 7,000 tons. The current rate is \$10.00 per ton."

The Austrian and Hungarian delegations have arrived at an agreement on a point of the Budget on which they hitherto differed. The session of the Austrian delegation has closed.

—The N. Y. Graphic says: "An estimate has been made of the wheat crop for this harvest in twenty-one States, viz, the six New England States, New York, Pennsylvania, Tennessee, Kentucky, Arkansas, Texas, Ohio, Indiana, Illinois, Michigan, Wisconsin, Nebraska, Kansas, Iowa and Minnesota. The total is a tremendous sum of 301,000,000 bushels. This is 9,300,000 tons; to move it would require 900,000 cars, each carrying ten tons; to drag these cars in trains of twenty each, would require 45,000 locomotives. If the train were spread along the rail-ways at a distance of a quarter of a mile from each other, they would cover 11,287 miles of track; they would form four lines extended clear across the continent from New York to San Francisco. By this is not that. There is California, which produces a most valuable and nutritious wheat, and whose crop this year will be probably 60,000,000 bushels. Then there are New Jersey, Delaware, Maryland, Virginia, North and South Carolina, Georgia, Alabama, Mississippi, Louisiana, Missouri, Colorado, Utah, Nevada, Oregon and Idaho. Each of these States and Territories produces some wheat. The forthcoming crop in the sixteen States and Territories may be safely set down at 150,000,000 bushels; so that the whole wheat crop of the country for the harvest of 1878 will not be less than 450,000,000 bushels, or 13,500,000 tons. The figures are stupendous and unexampled. The railways, taken at their utmost capacity, cannot move this immense crop."

THE HOUSE OF LORDS.—At the beginning of the present year the British House of Lords consisted of—Blood royal, 5; archbishops, 2; bishops, 21; magistrates, 20; earls, 128; viscounts, 32; barons, 25; herons, 261; or a total of about 25 per cent more than at the death of George IV. Of the barons who responded to the first writs of summons to Parliament, less than six hundred years ago, the descendants of two only now sit in the upper House, these are Lords Hastings and DeLoe, the baronies of both dating from 1364. The surviving peers, however, are creations of the fourteenth century, are 4; of the fifteenth century, 7; of the sixteenth, 12; of the seventeenth, 35; and of the eighteenth, 55. The remainder are the creations of the present century.

THE ROSS HARBOR RACE.—St. John, (N.B.) report says: "Thursday, July 26th has been fixed out for the sailing race between Havelock, of Toronto, and Ross, of this city. The race will be held on the Kennebecasis, distance, five miles, for 81,000 a side, Havelock receiving \$2500 excess. The articles of agreement were forwarded to Toronto for signatures last night."

REBUTICE.—The Anglican Bishop of Ontario has issued the following notice: To the Clergy of the Diocese of Ontario. My REVEREND BRETHREN—I hereby notify you that the Rev. Thomas Alexander Parnell, of the Diocese of Kingston, my Commissary during my absence of the last, has been appointed my clerk of the last. Francis F. Thompson, I am faithfully yours, Ottawa, May 31st, 1878. J.T. Ont.

WINNIPEG, June 7.

Mr. Hugh Sutherland today inspected the boats of the navigation of the Red River.

Over 100,000 acres were recorded at the Emerson land office during the month of May. 6,000 were taken up on the first of June.

Regular steamship communication between Emerson and Winnipeg will shortly be established.

Statistics of the whole Province show three times as many acres were recorded during the same period last year have been taken up between the first of January and the end of May.

LIVE STOCK TRADE.

Mr. John Goary, of London, Ontario, who is at present on a tour in Europe, visited the great horse and stock fair held at Lincoln, England, recently, and secured a very valuable draft of pure bred Lincoln sheep, comprising two shearing rams and fifteen shearing ewes.

A large number of horses have arrived from Ontario at Liverpool and Glasgow. One of the shipment ten realized eleven hundred pounds. Others are selling at prices ranging from seventy to one hundred and fifty pounds each. This should encourage farmers to use good stallions.

BELLEVILLE, TUESDAY, JUNE 11.
City and Vicinity.

BOARD OF EDUCATION.—The June meeting of the Board will be held this evening.
RAY OF QUINCE YACHT CLUB.—The next meeting of this club is to be held at Hamby's on Friday evening at 8 o'clock.
EXCURSION.—The excursion of the pupils of the Institution for the Deaf and Dumb to Lake Huron will take place tomorrow.
TALL RYE.—Mr. Jos. Hoyle, of Bardeen, called today to show rye seven feet eleven inches in length. This beats any other of rye yet noticed.
TAXATION.—The rate of taxation for the current year is 15 mills for municipal and 44 mills for school purposes, or a total of 59 mills for all purposes.

THUNDER.—The last of the season's drive of saw logs are now down to the foot bridge, and as nothing is going on with the rapids, the river will probably be entirely clear a week hence.

RAIN.—The dust was nicely laid by a light shower of rain this morning. More would be acceptable, as the water supply is beginning to run short in places and gardens and fields would be the better of a little more surface moisture.

REMOVAL.—A. Robinson (Successor to R. Van Norman) Bookseller and Stationer, has removed his stock to the premises formerly occupied by Hoey & Son, two doors north of the old stand, where he will be happy to meet all the old patrons of the establishment and as many new ones as may favor him with a call.
36d & 21w

MARKET OUT.—The 15th Battalion returned well for their march out last night, and headed by their band, which played some excellent music in good style, a tour of the principal streets was taken. The marching of the men very favorably impressed the spectators, who seemed to take interest and pride in the appearance of this portion of our citizen soldiery.

AMUSEMENTS.—The "Celebrated Case" company will probably arrive Belleville at an early date. On their previous appearance here they were but poorly patronized, but the reputation which they left behind was that of one of the best of companies, and the play was one of the most effective of dramas, they will meet with better success on their return. Some other companies of good repute have booked at the Opera House.

MOONLIGHT EXCURSION.—Remember the moonlight excursion of the 15th Battalion back on the night of Thursday, per steamer Prince Edward. A three hours' ride over the waters on the bay will be given, and the brass and string bands will supply a choice selection of music. The band ought to be liberally patronized on the occasion, as the proceeds of this excursion will be devoted to the purchase of new instruments, of which they stand greatly in need.

OFFICERS' BAND.—The performance given by this band at the Grand Trunk Railway station last night attracted a large audience and elicited highly favorable comments. The band will play on the hospital to-night for one hour, namely from 8 until 9 o'clock. An excursion to Kingston for the benefit of the band fund, is to take place on Monday next, 17th inst. Excursionists are to be allowed the privilege of stopping at Picton or Stone Mills, if they prefer.

TARDY.—Alfred is becoming very tardy in getting to the Council meetings, it being "ten minutes too late" last night before a quorum could be got together. The rule is very strict, namely for 15, half an hour after the appointed time (7:30 o'clock) a quorum be not assembled, then the Council shall stand adjourned until the next night of meeting. We hope that this kind will not be drawn away, as the nights are all too short for the sessions, without wasting time at the hour for commencement.

ESCAPE.—Wm. Wallace, who was arrested in Steirling, on the 10th, on a charge of stealing a buffalo robe, managed to escape from the constable Butler but was recaptured by Constable Butler and was sent to the jail. While Butler was eating his dinner, he left the prisoner in a room in Conley's hotel, with a guard at the outside door. It happened to be a room on a store went was keeping close watch outside, while the prisoner crawled between the stove and partition and succeeded in effecting his escape. Our informant says to see some passing a blacksmith shop last evening, near William's Corners, having, meanwhile, got rid of his handcuffs. He is probably beyond the reach of the constable by this time.
RETURNED IN ERROR.—The tractor Turcotte, was burned in effect at Three Rivers on the night of the 8th inst.

County Court and General Sessions.

TUESDAY, June 11.
This Court opened today at noon before His Honor, G. Sheppard, County Judge.
The criminal business likely to occupy the attention of the Court is as follows:

QUEEN vs. McLAUGHLIN.—Wounding and assault, previous felony bar to Patrick Tansy.

QUEEN vs. MURPHY and ROWE.—Housebreaking with intent to steal at Windsor.

QUEEN vs. MICHAEL MURPHY.—Obtaining money fraudulently by No. 2 House Company, Belleville.

The Grand Jury is composed of the following gentlemen:

R. H. Breckell, Foreman.
Hector Ainger, John Johnston,
Wellington Bristol, John F. Lloyd,
John Brock, Alex. McNulty,
William Blount, James O'Hara, Jr.,
Francis Craig, Alex. Quinn,
Alexander Craig, James Rish,
Charles Elliott, Stephen Todd,
Thomas Griffin, John Tottle,
John Green, William Ross,
Charles Hala, Robert Wallington,
Robert Halbert, Robert Wallington.

A civil docket comprises 28 cases, as follows:

1. Palen vs. Lattimore—Clute vs. pld.
Wallbridge for debt.

2. Fisher et al. vs. Robertson—Clute; Diamond.
3. Thompson vs. Howard—Clute; Peterson.

4. Graham vs. Mills—Clute; Palmer.
5. Ferguson vs. A. C. N. H. R. Co.—Clute; Douglas & Falkner.

6. Young vs. Acton—Clute; Delany.
7. Moore vs. Rubin et al.—Dickson; Blackbridge.

8. Hodgins vs. Parker—Dickson; Wallbridge.
9. Walker vs. Garrett et al.—Dickson; Douglas & McPherson.

10. Redick vs. Garrett et al.—Dickson; Douglas & McPherson.

11. Benney vs. Gorman—Dougal & Falkner; Clute.

12. Dunning vs. Gill—Francis & Co.; Delany.

13. Montreal Cigar Co. vs. Acton—Dougal & Falkner; Clute.

14. Sutherland vs. McKenzie—Dougal & Falkner; Smythe.

15. Lapierre vs. Johnson—Dougal & Falkner; Clute.

16. Montreal Cigar Co. vs. Acton—Dougal & Falkner; Smythe.

17. Hatchell et al. vs. Hanover—Dougal & Falkner; Keble.

18. Lapierre vs. Patterson—Dougal & Falkner; Keble.

19. Black vs. Frost et al.—Dougal & Falkner; A. Frost.

20. Frost vs. McCaw—Barlett & Flint; Ball.

21. Dale et al. vs. R. N. H. R. Co.—Bleeker; Falkner.

22. Lundenberger vs. Trausche—Hollen; Dickson.

23. Roberts vs. Richmond—Flint & Jellott; Ball.

24. Roberts et al.—Richmond—Flint & Jellott; Ball.

25. Lalonde vs. McLaughlin—Wallbridge; Diamond.

26. Siga vs. Turley—Wallbridge; Clute.

27. Leung et al. vs. Switzer—Dougal & Falkner; Alton.

28. Pearson vs. Guter et al.—Delany & Ostrom; Douglas & Falkner.

His Lordship said in addressing the Grand Jury, that there were 23 prisoners confined in Gaol, only two of whom would come before them for trial, as the majority of the prisoners were confined for minor offences. One of the cases that would come before them was for malicious assault, which is to be put before the jury, they should find that the evidence was such that had the assaulted man, the prisoner would have been put on his trial for murder. The other case was for forgery, which might be a simple case of forgery. He also instructed them to examine the Gaol and report on it. From present appearances, he said, no doubt the Grand Jury would be dismissed in a day or two.

A. F. & A. M.

Last evening at the annual communication of Frank Lodge, No. 127, G. R. C., held at Masonic Hall, Frankford, the following officers were elected for the ensuing year:

John A. Chisholm, W. M.
John A. Stevenson, M. D. S. W.
Morden Bird, J. W.
Chas. A. T. Jones, Secy.
W. Scott, Treas.
H. Bleeker, I. G.
Amos Hall, G. G.

Police Court.

(Before A. DIAMOND P. M.)
DISMISSED.
The charge of R. N. Bennett vs. Jacob Yeomans of obtaining a signature under false pretences, was finally dismissed, on the ground that there had been no fraudulent intention.

Michael Ryan, charged with larceny, was dismissed, no one appearing to prosecute.

Assault.

Adam Knight, for assault on Moses Wood, was fined \$6 and costs.

Military Contumacia.

Is the flying artillery one of the wings of the army?
Who pays for the bayonets when the soldiers charge them?
When the "shriek music of the shells" is spoken of, is a bomb hand meant?
How many spokes are there in the right wheel?
Do you use a pen or pencil to write about a face?

Can stealing a log of bacon be called a flank movement?
Can pickpockets be classed as rifle men?
Is the major general a staff made of oak or hickory?
Can you play or sing a platoon?

Are the reports by the artillery regiments to be heard by the cannon-ears?

RAVENBERRY.—The wood, or cause, that fruit this year, will die the next, and the green shoots that are now growing, will bear next year's crop. If more of these new shoots then are wanted to start up, select three or four of the best of each stock, and plant the others like a row of trees, at a distance from the plant, but about up from around the base. Keep the new shoots shortened to make a neat bush 2 1/2 or 3 feet high. Thus treated, they will need no stakes. We prefer to cut out the old ones as soon as picking is over.

THE EASTERN QUESTION.

MIDNIGHT DESPATCHES.

LONDON, June 10.—A despatch from Constantinople says that great uneasiness continues to prevail. Osman Pasha has been appointed Governor of the Palace, and still retains command of the army.

The appointment of Caradhoroff, a pure Greek and Christian, as the first, and a Prussian, Mehmet Ali, as the second, plenipotentiary, is corroborated in the history of the Porte, and is regarded as a clever move on the part of the Turks to demonstrate the equality of Ottoman subjects under the new Constitution.

Prussian demands reach Constantinople from the Pasha camp in the Rhodope Mountains for aid in behalf of over a hundred thousand refugees who have fled thither from the Russians and Bulgarians.

This morning's news from Europe with reference to the Eastern question is meagre and insignificant, consisting merely of the announcement of the departure of the several plenipotentiaries for Berlin, and a prediction that the only policy likely to cause any difficulty are the war indemnity and the annexation of Antivari to Montenegro.

Austria believed to be secretly arming, and a strong feeling has grown up in Germany against the pretensions of Roumania on the subject of the retrocession of Bessarabia.

Special Notice.
To all who are suffering from the errors and indications of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. HIGHWAY ROBBERY IN NEW YORK.

WHEELING, W. Va., June 11.—A negro convict in the penitentiary yesterday assaulted two other convicts with a hatchet at dinner, injuring one probably fatally.

St. Paul, June 11.—A Roman Catholic reports that a missionary among the Sioux Indians states that there is not enough buffalo in the British possessions to feed the Indians there, and that when Sitting Bull finds himself in danger of starvation there will be a general massacre of the whites, with the Canadian police as the first victims. A speedy uprising is anticipated.

WANTON, D. C., June 11.—The Consul at Canton gives the particulars of a tornado which passed over that city on April 11th. It came from the sea in the shape of a water spout and passed through the crowded part of the city. 10,000 rats were killed.

COLUMBIA, S. C., June 11.—Amos Ladd, one of the famous Redmond gang of "moonshiners," was killed by officers in Pickens County on Sunday while resisting arrest.

NEW YORK, June 11.—The Tribune's Washington dispatch says the Senate passed the House Bill, legalizing the collection of money from steamship companies landing immigrants at New York, a million dollars will be saved to the city treasury. Suits for that amount have been brought by the steamship companies since the Supreme Court decided that the collection of head money by the State authority was unconstitutional.

NEW YORK, June 11.—The schooner Eddies was sent to sea to search for the missing of the Franklin expedition—has been detained by the bad weather until the close of the week.

Five robbers with revolvers jumped upon a crowded 3rd Avenue horse car at night, and after beating Joseph Lafetra severely, stole his watch, containing \$150.

Rev. Vincent Smith, assistant rector of the Reformer (Episcopal) church, became insane during the services and was sent to the asylum. Cause, overwork.

Arrived, the Bohemia from Liverpool.

AFTERNOON DISPATCHES.

BERLIN, June 11.—Nothing is likely to recover. The recovery of the Emperor is progressing wonderfully. To-day he celebrates the forty-ninth anniversary of his marriage.

Frequent arrests for transmissible ailments continue.

The subject of the approaching Congress attracts relatively less public attention than the internal crisis.

St. Petersburg, June 11.—The condition of the Emperor during the night was less disturbed, but still a weaker. There will be a solemn service of prayer to-day, for his recovery.

LONDON, June 11.—Arrived out, the Ohio and State of Virginia, from New York.

The Daily News editorial makes reference to a prevailing belief in the early dissolution of Parliament.

Boston, June 11.—The Federal Court, it is expected, will certainly consent to the dissolution of the Reichstag to-day. The election will be appointed for the second half of July.

POTTSVILLE, Pa., June 11.—Denise, alias Bucky Donnelly, a Schuylkill County Mollie Maguires, was hanged here this morning for the murder of "The Hanger, mist" born, in 1876. Donnelly had nothing to say on the scaffold, and after the drop fell he struggled horribly until strangled to death.

Beverly, June 11.—The Rev. Dr. Nesbit, who started from South Boston, on the 10th, on Friday, and put into Beverly for repairs on Saturday, is ready for sea, and will start with the first fair wind for the coast.

SPRINGFIELD, O., June 11.—A fire here caused a loss of \$15,000.

UNIONVILLE, Tex., June 11.—A courier brought word yesterday that Col. Alger and 150 Government troops attacked Col. Rogers and 100 Unionists near Garza Ayala at Los Ladrones, forty miles north of New Laredo, and after taking many prisoners and capturing arms, horses, etc. Many are reported killed and wounded on both sides. There is great rejoicing in New Laredo. The revolution is regarded as a complete failure in this section.

NEW YORK, June 11.—Today the congressional Trinity Church of the Rev. George F. Seymour, LL.D., Dean of the General Theological Seminary, at New York City, took place.

RARE CHANCE!

FOR BUSINESS.

VACANT, June 11.—The House Judiciary Committee to-day, 8 against 1, decided to report a resolution asserting in substance that the 44th Congress was a properly constituted body to count votes and declare the result of the Presidential election.

New York, June 11.—Arrived, the Canada from London and the Transmarine from Hamburg.

WEATHER REPORTS.
TORONTO, June 11.—Probabilities for the next twenty-four hours: For the Lower Lake region, moderate to fresh winds and fair weather, with light showers. For the St. Lawrence valley, moderate to fresh winds and fair weather, with light rains. For the Maritime Provinces, fresh winds and cloudy weather, with rain.

WASHINGTON, June 11.—Indications: Warmer, clear or partly cloudy, except occasional light rains.

Hans Markart painted a picture in which he represented the Emperor's horse preceded by four lovely nude women with the beautiful faces of well known Viennese ladies. There is much scandal and indignation.

HIGHWAY ROBBERY IN NEW YORK.

WHEELING, W. Va., June 11.—A negro convict in the penitentiary yesterday assaulted two other convicts with a hatchet at dinner, injuring one probably fatally.

St. Paul, June 11.—A Roman Catholic reports that a missionary among the Sioux Indians states that there is not enough buffalo in the British possessions to feed the Indians there, and that when Sitting Bull finds himself in danger of starvation there will be a general massacre of the whites, with the Canadian police as the first victims. A speedy uprising is anticipated.

WANTON, D. C., June 11.—The Consul at Canton gives the particulars of a tornado which passed over that city on April 11th. It came from the sea in the shape of a water spout and passed through the crowded part of the city. 10,000 rats were killed.

COLUMBIA, S. C., June 11.—Amos Ladd, one of the famous Redmond gang of "moonshiners," was killed by officers in Pickens County on Sunday while resisting arrest.

NEW YORK, June 11.—The Tribune's Washington dispatch says the Senate passed the House Bill, legalizing the collection of money from steamship companies landing immigrants at New York, a million dollars will be saved to the city treasury. Suits for that amount have been brought by the steamship companies since the Supreme Court decided that the collection of head money by the State authority was unconstitutional.

NEW YORK, June 11.—The schooner Eddies was sent to sea to search for the missing of the Franklin expedition—has been detained by the bad weather until the close of the week.

Five robbers with revolvers jumped upon a crowded 3rd Avenue horse car at night, and after beating Joseph Lafetra severely, stole his watch, containing \$150.

Rev. Vincent Smith, assistant rector of the Reformer (Episcopal) church, became insane during the services and was sent to the asylum. Cause, overwork.

Arrived, the Bohemia from Liverpool.

AFTERNOON DISPATCHES.

BERLIN, June 11.—Nothing is likely to recover. The recovery of the Emperor is progressing wonderfully. To-day he celebrates the forty-ninth anniversary of his marriage.

Frequent arrests for transmissible ailments continue.

The subject of the approaching Congress attracts relatively less public attention than the internal crisis.

St. Petersburg, June 11.—The condition of the Emperor during the night was less disturbed, but still a weaker. There will be a solemn service of prayer to-day, for his recovery.

LONDON, June 11.—Arrived out, the Ohio and State of Virginia, from New York.

The Daily News editorial makes reference to a prevailing belief in the early dissolution of Parliament.

Boston, June 11.—The Federal Court, it is expected, will certainly consent to the dissolution of the Reichstag to-day. The election will be appointed for the second half of July.

POTTSVILLE, Pa., June 11.—Denise, alias Bucky Donnelly, a Schuylkill County Mollie Maguires, was hanged here this morning for the murder of "The Hanger, mist" born, in 1876. Donnelly had nothing to say on the scaffold, and after the drop fell he struggled horribly until strangled to death.

Beverly, June 11.—The Rev. Dr. Nesbit, who started from South Boston, on the 10th, on Friday, and put into Beverly for repairs on Saturday, is ready for sea, and will start with the first fair wind for the coast.

SPRINGFIELD, O., June 11.—A fire here caused a loss of \$15,000.

UNIONVILLE, Tex., June 11.—A courier brought word yesterday that Col. Alger and 150 Government troops attacked Col. Rogers and 100 Unionists near Garza Ayala at Los Ladrones, forty miles north of New Laredo, and after taking many prisoners and capturing arms, horses, etc. Many are reported killed and wounded on both sides. There is great rejoicing in New Laredo. The revolution is regarded as a complete failure in this section.

NEW YORK, June 11.—Today the congressional Trinity Church of the Rev. George F. Seymour, LL.D., Dean of the General Theological Seminary, at New York City, took place.

RARE CHANCE!

FOR BUSINESS.

VACANT, June 11.—The House Judiciary Committee to-day, 8 against 1, decided to report a resolution asserting in substance that the 44th Congress was a properly constituted body to count votes and declare the result of the Presidential election.

New York, June 11.—Arrived, the Canada from London and the Transmarine from Hamburg.

WEATHER REPORTS.
TORONTO, June 11.—Probabilities for the next twenty-four hours: For the Lower Lake region, moderate to fresh winds and fair weather, with light showers. For the St. Lawrence valley, moderate to fresh winds and fair weather, with light rains. For the Maritime Provinces, fresh winds and cloudy weather, with rain.

WASHINGTON, June 11.—Indications: Warmer, clear or partly cloudy, except occasional light rains.

BELLEVILLE, MONDAY, JUNE 17.

City and Vicinity.

CITY COUNCIL.—The session of this body will commence at 2 p. m. to-morrow.

CITY COUNCIL.—The Council will hold a special meeting this evening, for the de-
bate of general business.

RAIN.—A heavy shower fell yesterday morning. Its effect has been highly beneficial, but still more moisture is wanted.

THE ALUMNI.—The Rev. Bidwell Lane, M. A., is to address the Alumni Society of
Albert College in the College Chapel at 8
o'clock this evening.

QUOTING.—The championship match was
concluded on Friday. The first prize
was won by Mr. Wm. Glendinning, second
by George Sheppard, third by James Ren-
nie, fifth by Wm. Bright, sixth by Walter
Reid and seventh by James MacTague.

EDUCATIONAL SOCIETY.—The annual
meeting of the Educational Society of Eastern
Ontario will be held at Kingston this
year on the 22nd, 23rd, and 24th of July.
An interesting programme has been arranged.

IF YOU are restless and cannot sleep, take
SANTON'S JAMAICA GINGER.

DOG.—Up to noon to-day 45 dogs had
been registered, and registration is proceed-
ing rapidly. As there were 388 registrations
made last year, it will be seen that but a
very small proportion of the dogs in the
city have as yet been registered.

OBSESSORS' BAND RECEPTION.—The
excursion to Kingston for the benefit of the
"Obsessors' Band," which left town this
morning, drew forth a considerable attendance,
and as the weather was cool, doubtless
the excursionists enjoyed themselves great-
ly, as the trip must have been a pleasant
one.

MAINE.—The schr. *Baltic* is at Baker
& Co's loading lumber. The schr. *Katie*
Edie has been chartered to take a load of
lumber to the *Marquette*. The schr. *Mary*
Foster has arrived from Mill Point with
freewood. The *str. Alexander* arrived from
Montreal on Saturday and left on her return
this morning, with a good bill of freight
each way. The *str. Rainbow* is discharg-
ing coal at Campbell & Co's.

COMMERCE OF MONTREAL.—Mr. Robert
S. White, commercial editor of the *Mont-
real Gazette*, has compiled and published a
general review of the commerce of Mont-
real for 1877. The pamphlet, which should
be of great value to business men,
comprises 122 pages of matter, and is
of which bears the impress of industry, care
and ability in its preparation. Published
by T. & E. White, of the *Montreal Gazette*.

DAYMAN'S ASSOCIATION.—We have re-
ceived a copy of the annual report of
Western Association, which forms a volume
of nearly 200 pages. Besides a report of
the transactions, it contains the addresses
of J. B. Reall, W. C. Herr, Prof. Angus, Dr.
Rev. W. F. Clarke, Prof. Caldwell, and
Hon. Harris Lewis, all of which are of great
value to daymen, and in addition a large
quantity of interesting matter.

BACALCATE SERMON.—The annual
sermon to the undergraduates of Albert
College was preached in the M. E. Taber-
nacle yesterday morning by the Rev. J. B.
Jaeger, President of the College. Taking
as his text the passage of scripture "If ye
have faith," &c., the Rev. gentleman pro-
ceeded to consider the various obstructions
to man becoming moral and the methods
taken to obtain that end, all of which he
discussed exhaustively and with ability,
concluding finally to the conclusion that
the greatest requisite was to make men Christians.
The discussion was listened to with pro-
found attention throughout.

MORE CONFIDENTIAL.—The *Montreal*
Star says: "Another dangerous counterfeit
Dominion bill was shown yesterday by the
President of the City Passenger Rail-
way Company. In paper and engraving it
is exactly similar to the note described yester-
day, but it bears a different number, and
professes to be signed by F. A. Coffin.
The number is 435,234. The appearance
of the back of the bill, if minutely inspec-
ted or compared with a general note, leaves
no doubt that it is a counterfeit. The bill
was taken by the conductor of one of the
cars."

APPROXIMATE JOURNAL.—The July number
begins a new volume with an American
novel by Albert Ross, entitled "A Risk of
Nature." A short story in the number,
which is almost long enough to be called a
novellette, entitled "Sam," is a tale of mining
life in the State of Nevada. The number opens
with an illustrated article entitled "The
Rose of New England," is an interesting paper
on Norwich, Connecticut, which is dubbed
the "City of E. A. Revolving." The number
closes with a charming paper from Paris entitled

THE EASTERN QUESTION.

MIDNIGHT DESPATCHES.

LONDON, June 16.—A Constantinople de-
spatch of the 15th inst. states that the
Turkish Government has been instructed to
withdraw from the Congress and declare
that Turkey prefers to execute the stipulations
of the Treaty of San Stefano, and to
submit to the arbitration of the Great Powers.
The despatch further states that the
Turkish Government has been instructed to
submit to the arbitration of the Great Powers
the question of the execution of the Treaty
of San Stefano, and to submit to the
arbitration of the Great Powers the question
of the execution of the Treaty of San
Stefano, and to submit to the arbitration
of the Great Powers the question of the
execution of the Treaty of San Stefano.

A Berlin correspondent says:—The sole
question which might threaten the success
of the Congress is the organization of Russia,
England, with the support of France, Austria,
Turkey, and possibly Italy, will advocate
an organization as will make Russia the
bulwark of Constantinople. For this
purpose the Russian element should be to-
tally excluded and the predominance given to
the Greeks. A rupture would be almost in-
evitable in consequence of a prolonged discus-
sion of the point. The friends of Russia as-
sert that she will resist. A correspondent
who is generally well informed considers these
threats merely an attempt to frighten others.
The impression now is that Greece will be
admitted to the Congress if she be content
with a consultative voice. Roumania will
abide by the decision of the Congress if al-
lowed a hearing. Andrusky has a definite pro-
gramme and speaks with much firmness re-
lative to the limits of Bulgaria. Neither
France, Italy, nor Austria is in favor of the
cession of Batoum to Russia, fearing that
England will eventually seek compensation
for the cession of Batoum to Russia, and
Egypt. The Emperor of Austria has written
to the German Emperor expressing hopes
of an interview with him at Gastein in the
autumn.

A despatch from Vienna says:—Although
some progress is reported to have been made
in the negotiations between the Russian, Aus-
trian, and English plenipotentiaries, the im-
pression is that things are yet very far from
a conclusion. It is believed that some further
time will be devoted to private negotiations
before the commencement of real business.
The London *Gleaner* says it has reason to
believe that Austria and Russia have reached
an understanding by which the interests of
Austria-Hungary will be protected in the
one way, and English interests are protected
by the agreement between Lord Salisbury
and Schouvaloff. The premature publication of
the latter is generally believed to have
been procured by Russian diplomats, with
the object of quelling the excitement in
Russia about the supposed concessions to England.

A serious conflict occurred at Paderma
between the residents and refugees. It is re-
ported several persons were killed.

A Constantinople despatch says:—The
British Consul will go to the Rhodope Moun-
tains on Thursday to inquire into the con-
dition of the destitute refugees there. The
insurrection spread from Gümüla to the
north-west distance of the coast.

A Ragusa telegram says:—It was reported
here yesterday that hostilities had commenced
between the Turks and Montenegro. No
confirmation has been received. The Men-
tengians are actively fighting their ene-
mies on the frontier. All the insurgent chiefs
of Herzegovina met in Cetinje to-day at the
invitation of Montenegro. The object of
the meeting is unknown.

The reports that the Sultan's mind is af-
fected are untrue, but there is no doubt that
the Sultan suffers from nervous agitation, and
is a prey to capricious apprehensions.

AFTERNOON DISPATCHES.

BERLIN, June 17.—The Congress meets at
the Reichstag to-day. The plenipotentiaries
are to come up for discussion first, then the
Mongolian and Serbian questions, Bismarck
having, it is said, submitted a plan for taking
up the respective chapters of the treaty of
San Stefano in the order of their importance,
and of the amount of opposition they are
likely to meet. The questions which threaten
the success of the Congress are believed to be
the question of Austria-Hungary, the position
of Roumelia in relation to Turkey, and
of the administration and Government
organization of Roumelia. Austria and Italy
will oppose the cession of the coast of the
Adriatic, or perhaps Russia and Germany,
will uphold it, but this question may be com-
promised, or Russia may yield. England, France,
Austria, Turkey, and perhaps Italy will up-
hold the anti-Russian arrangement and
organization of Roumelia.

On these questions it is thought England
and Austria cannot yield. Russia must win
her friends as she will not, but such as-
sertions are probably intended to mislead.
The fact is the war party was banished from
the capital when Gladstone went to Kiel. Be-
sarabia will be yielded to the Car's personal
wishes, and Roumelia will accept the Rus-
sian exchange. Territorial concessions
in Armenia will not at least meet with oppo-
sition from England. The question of war
indemnity will be settled by the appointment
of a commission to collect the Turkish re-
bates and pay over a certain proportion to
Russia, or to capitulate such proportion
by a foreign loan and pay the Russian claim
in bulk. One notable feature in all these
speculations is, that they omit to take any
account of possible opposition from the Turks.
This omission is only justifiable on the assump-
tion that all modifications of the treaty are
in favor of Turkey, which is not by any
means certain. Carathodou Pasha is making
preparations for a vigorous representation of
Turkish interests before the Congress, but his
position is very unpleasant.

LONDON, June 17.—James Thompson, com-
missioner, Wakefield, has failed. Liabilities
amounted to the Somerset and State of
Georgia, from New York.

A Paris despatch reports that Mrs. Noyes,
wife of the American abolitionist, has been
arrested for her farewell reception. It is gen-
erally believed that Mr. Noyes will not return.
New York, June 17.—John Davis, keeper
of the prison at the Court House, was
found dead this morning; he had been in ill
health.

St. Louis, June 17.—The Times has an ar-
ticle regarding the general strike, which
has been alleged, would be inaugurated in
day throughout the country, and says there
are no indications here of any such move-
ment, and that it is a pure fabrication. The
police and municipal authorities are fully pre-
pared for any emergency.

CHICAGO, June 17.—Arrived out, the
Spokane New York, June 17.—June returns to the
Washington of Agriculture indicated an increase
of fully 3 per cent in the area planted in cot-
ton. The cotton crop is expected to be better
than in June last year. The figures indicating

LOW PRICE LINES

are the same as 1877 in Virginia, Georgia, and
Louisiana, and higher in all other states.
The season is earlier than last by an average
of 10 days.

FROM ST. CATHARINES.
THE WELLAND CANAL.

ST. CATHARINES, June 17.—It is expected
that navigation on the Welland Canal will be
resumed this evening. A force is working
night and day at the break.

WEATHER REPORTS.
TORONTO, June 17.—Probabilities for the
next twenty-four hours: For the Lower Lake
region, moderate to fresh winds, fair weather.
For the Upper St. Lawrence, moderate to
fresh westerly to northerly winds, fair weather.
For the Lower St. Lawrence, fair to
cloudy weather with rain areas. For the
Maritime Provinces, moderate to fresh, southe-
asterly to southwesterly winds, fair to cloudy
weather with rain areas.

WASHINGTON, June 17.—Indications
—Middle states warmer; lake region shifting
to cooler winds, cloudy, frequent rains.

Daily Intelligencer.

BELLEVILLE, TUESDAY, JUNE 18.

City and Vicinity.

ENGLISH MAIL.—An English mail was distributed here this morning.

ARRIVED OUT.—The steamship *Scandinavian* arrived out-to-day.

DOGS.—The number of dogs registered up to noon to-day was 63.

MARKET.—The schooner *Sand* has arrived from Oswego.

THE CELLS.—There were no prisoners arrested last night, and no tramps lodged in the cells.

NOY COMING.—The celebrated *Cass* company will not put in an appearance to-night, having departed in Toronto.

R. C. PHOENIX.—A considerable number of persons left here to-day to attend the R. C. picnic at Trenton.

NEW LAW FIRM.—Messrs. T. Holden and P. J. M. Anderson have formed a partnership for the general practice of law. We wish the new firm success.

CLOSE OF TERM.—The term close in the Institution for the Deaf and Dumb closes to-morrow. The pupils will leave for home at 4 o'clock a. m., in charge of the Principal and teachers.

DAVID STARR.—The Corporation will at once erect a hand stand on the hospital grounds for the convenience of the musicians who perform there. Col. B. F. Baker generously gives the necessary lumber.

THE CONVOCATION.—Dr. Hodgins, Deputy Minister of Education for Ontario, will be present at the Convocation of Albert University to-morrow. The Mayor, Mayor and Corporation of the city of Belleville will also be present.

SALE OF LANDS.—The County Treasurer's adjourned sale of lands for taxes commenced yesterday afternoon and ended this morning. All the lands offered were sold, and the prices realized were rather above the usual figures.

SUBJECT DEATH.—We are informed that Mrs. Thomas Lytle, of Jordan, died suddenly on Sunday night. Her husband went out for a short time to a neighbor's, and on his return found her lying dead near the door of the house. The cause of death has not yet been ascertained.

ALBERT UNIVERSITY.—The Convocation of Alexandra College will be held in the College Chapel at 8 o'clock this evening. At 2 p. m. to-morrow the twelfth annual Convocation of Albert University will take place in the City Hall. The gathering will not doubt be full of interest, as usual.

THE 15th BATTALION.—The annual drill of this battalion was commenced last night when the regiment had a march out. There was a larger muster than had taken place previously this year, and the battalion presented a very creditable appearance, and attracted much attention as headed by their fine band, discoursing excellent music they marched along several of the principal streets. Drill will be continued on Monday, Wednesday and Friday evenings until the allotted six days have been put in.

THE "ALEXANDRA" (STEAMER).—The *Brookville Recorder* states that the side wheel steamer *Alexandra* was seized there on Friday afternoon on the receipt of a telegram from the Customs authorities at Prescott. It appears that the Captain had left Ogdensburg during the forenoon, and was calling at Prescott handed in his report to a man named Buckley, who, it seems, had no authority to take it. The Customs authorities accordingly telegraphed to Brockville, and upon arrival of the boat at the dock she was seized by officer Simpson. A bond for \$400 was given and she was allowed to depart. We understand this is the third time she has met with the same treatment, once below Ogdensburg, once at Prescott and the last time on Friday.

If you are restless and cannot sleep, take SANDER'S JAMAICA GINGER.

STANDING OF SHIPMENT BALLAST.—The *New York Forest and Stream*, which is now the leading yacht authority in America, says: "As long as sand-bags can be piled up to windward, all *alibi*, the yachts become more sailing machines than boats, and the relative speed of competitors, and represent rather an excess of brute force, coupled generally with recklessness on the part of the crew. Matches sailed with all elements of true sportsmanship, and competition in scientific design. These remarks are forcible and to the point, and hence it is that in Canada all leading yachting organizations forbid the shifting of ballast in craft of more than 5 tons measure. Where more racing machines are

THE EASTERN QUESTION.

MIDNIGHT DESPATCHES.

LONDON, June 17.—The second session of the British Ministry of Foreign Affairs, held from two o'clock until six in the afternoon, and lasted from two o'clock until six in the afternoon.

The subject under discussion appears to have been the admission of Greece, which will be supported by France, England, Austria, and perhaps Germany; and the Bulgarian question, in the consideration of which several obstacles were mentioned. England, it is stated, is supported by Austria, declaring it essential to even consider the proposition for a Russian occupation of Bulgaria after the peace of the Balkans. The Russian and Austrian plenipotentiaries are said to enter freely into the discussion, while the German, French, and Italian representatives maintain a strict reserve. An understanding between Russia and Austria is considered certain, and upon the whole the prospect of a peaceful solution is increasing. There has been some trouble in Montenegro, owing to an attack by Turks upon Montenegro, but it is not thought that this will lead to further hostilities. The next meeting of the Congress will be held to-morrow.

The Duke of Richmond and Gordon stated in the House of Lords yesterday that the memorandum of the agreement between England and Russia published in the *London Globe* was surreptitiously obtained through the private communications of the British plenipotentiaries, and therefore an explanation of the Government's policy it was incomplete and inaccurate.

AFTERNOON DESPATCHES.

LONDON, June 18.—Some Berlin correspondents assert that Salisbury proposed the admission of Greece to the Congress, and supported his proposal in a speech which occupied the entire sitting yesterday.

Other correspondents declare that the admission of Greece was postponed until Wednesday.

It is stated that when Andrius introduced the question of the boundaries of Bulgaria, he made an earnest speech, urging the division of European Turkey into districts on the basis of nationality, and that he closed by a hope and regeneration possible without severing their connection with the Porte.

SCUTARI, June 18.—The conflict between the Turks and Montenegrins recently reported, was a simple riot among the Turkish and Montenegrin inhabitants of Kraina.

LONDON, June 18.—The Berlin correspondent of the *Times* reports that probably Greece will ultimately be admitted to the Congress, and that the plenipotentiaries of the various powers are expected to arrive in London on Monday.

SCUTARI, June 18.—The conflict between the Turks and Montenegrins recently reported, was a simple riot among the Turkish and Montenegrin inhabitants of Kraina.

LONDON, June 18.—The Berlin correspondent of the *Times* reports that probably Greece will ultimately be admitted to the Congress, and that the plenipotentiaries of the various powers are expected to arrive in London on Monday.

It is stated that when Andrius introduced the question of the boundaries of Bulgaria, he made an earnest speech, urging the division of European Turkey into districts on the basis of nationality, and that he closed by a hope and regeneration possible without severing their connection with the Porte.

THE EASTERN QUESTION.

MIDNIGHT DESPATCHES.

LONDON, June 17.—The second session of the British Ministry of Foreign Affairs, held from two o'clock until six in the afternoon, and lasted from two o'clock until six in the afternoon.

The subject under discussion appears to have been the admission of Greece, which will be supported by France, England, Austria, and perhaps Germany; and the Bulgarian question, in the consideration of which several obstacles were mentioned. England, it is stated, is supported by Austria, declaring it essential to even consider the proposition for a Russian occupation of Bulgaria after the peace of the Balkans. The Russian and Austrian plenipotentiaries are said to enter freely into the discussion, while the German, French, and Italian representatives maintain a strict reserve. An understanding between Russia and Austria is considered certain, and upon the whole the prospect of a peaceful solution is increasing. There has been some trouble in Montenegro, owing to an attack by Turks upon Montenegro, but it is not thought that this will lead to further hostilities. The next meeting of the Congress will be held to-morrow.

The Duke of Richmond and Gordon stated in the House of Lords yesterday that the memorandum of the agreement between England and Russia published in the *London Globe* was surreptitiously obtained through the private communications of the British plenipotentiaries, and therefore an explanation of the Government's policy it was incomplete and inaccurate.

AFTERNOON DESPATCHES.

LONDON, June 18.—Some Berlin correspondents assert that Salisbury proposed the admission of Greece to the Congress, and supported his proposal in a speech which occupied the entire sitting yesterday.

Other correspondents declare that the admission of Greece was postponed until Wednesday.

It is stated that when Andrius introduced the question of the boundaries of Bulgaria, he made an earnest speech, urging the division of European Turkey into districts on the basis of nationality, and that he closed by a hope and regeneration possible without severing their connection with the Porte.

SCUTARI, June 18.—The conflict between the Turks and Montenegrins recently reported, was a simple riot among the Turkish and Montenegrin inhabitants of Kraina.

BELLEVILLE, WEDNESDAY, JUNE 19.

THE CIVIC DEMONSTRATION.

The demonstration which is to take place in Belleville on Dominion Day, in honor of the incorporation of the municipality as a City, promises to be one of the grandest, most imposing and most successful events of the kind which has ever taken place in the Bay district, as a glance at the programme, which appears in our advertising columns, will indicate. This programme, it will be observed, is of such a nature that every person who visits Belleville on the day in question, without extraordinary exertion, witnesses all that is to take place. This feature, which has been generally overlooked in other places which have also prepared liberal programmes, but the nature of the amusements provided for in which are so diversified and take place in so many different localities that no person who is ever so active, can see more than a small portion of what is to be seen.

The arrangements here may be concisely stated as follows: At 10 o'clock in the forenoon a grand procession will be formed at the City Hall, and after a march through the principal streets of the city will proceed to the Agricultural Grounds, which are situated on Bridge Street West, and are easy of access. This procession will be composed of the 15th and 40th Battalions, about 600 firms, including visiting companies from Watertown and Cobourg, the tradesmen of the city, representing the different branches of industry in full operation, and citizens in carriages. There is every reason to expect that this procession will be a grand and imposing spectacle, as its members will doubtless be very great, and several bands of music will accompany the line of the 15th Battalion and the Oddfellows, as well as the famous City Band of Watertown, the playing of which has been so much admired here on different occasions. The procession will be over the grounds at a very moderate rate, it being stipulated by the Committee that not more than 25 cents shall be charged for dinner.

In the afternoon, commencing at 1 o'clock, the extensive programme of games and athletic sports which is detailed in the advertisement, and for competition in which the large sum of \$5000 is offered, will be proceeded with, under the direction of Mr. Hugh McKinnon, Chief of the City Police, who is himself the champion of the various sports. Mr. McKinnon will not be a competitor for any of the prizes, but to add to the interest of the occasion he will exhibit his skill and power in some of the feats of strength and skill. Competent judges from a distance will render their decisions in the various competitions, in which Mr. McKinnon has already succeeded in securing the entry of the best skilled and most noted athletes of the continent, including Messrs. E. W. Johnson, A. C. Reid, Geo. W. Johnson, George Mathewson, Hamilton, Messrs. Morrison and Edward Barry, of Toronto. These are all athletes of first-class ability, whose reputation stands without a stain. They have absolutely promised to be here, and as their competition will be the keenest description, such feats in boxing, putting the stone, hammer throwing, &c., will result from their meeting as has seldom or never before been witnessed in America or elsewhere. In addition to the various named, there will be a large additional entry of professional entertainers from a distance, and doubtless many local men will also test their skill and strength. Thus the success of this part of the programme is well assured as anything yet in the future can possibly be.

At the conclusion of the games, a civic banquet will take place at the DeWoe House, at which speeches will be made by a number of the Mayor and leading municipal authorities throughout the Province, a large number of whom have been invited, and many of whom will attend.

At 8 o'clock a grand torchlight procession will be formed at the City Hall, and will proceed through the principal streets thence to the Agricultural Grounds, where Prof. Hand, of Hamilton, is to give a brilliant display of fireworks, such as has never been witnessed here before. Prof. Hand is well known as the most skilled pyrotechnist in Canada, and as he has promised his personal attendance here, no failure in any part of his programme need be feared. The programme for the day of the celebration will be further amplified shortly, when it will be seen that this display will be one worth going many miles to see.

It may also be stated that this city will be gayly decorated on the occasion, arches being erected at various points, while the citizens have undertaken to decorate their residences handsomely and a general illumination will take place at night. Altogether, the spectacle will be one of the brightest and most attractive nature.

The facilities afforded to visitors by railroads and steamboats combined are very liberal in their nature. The Grand Trunk and branch lines will issue tickets at a very low rate for the double journey, while cheap excursions will be run from Oswego, Watertown, Picton, Napanee and intermediate ports, as well as from Trenton.

We fully anticipate that these unusual facilities will be largely taken advantage of, and that Belleville will, on the day of her celebration be visited by tens of thousands not only from the region of which it is the commercial centre, but from places lying far beyond our usual avenues of trade. All who are heartily welcome, and will find abundant provision for their creature comforts, not only at the Agricultural Grounds, but at the many

fine hotels which are well known throughout the Province. There can be no danger of overcrowding, and we hope to see such a crowd in town on Dominion Day as has never seen here previously, in order that the occasion may be worthily honored, as its importance deserves.

Mr. Flint gave notice of a By-law to search for material for County highways.

Mr. Pearce, to carry out the assessment, and for the assumption of a road in Marmora as a County road.

Mr. Murphy, for the assumption of a road in Huntington as a County road.

Mr. Ross moved, seconded by Mr. Grant, that the Treasurer be ordered to furnish a statement of the arrears due by each municipality—Carried.

Council adjourned till 10 o'clock Wednesday morning.

SECOND DAY.

Wednesday, June 19.

The Council met at 10 o'clock.

The minutes of yesterday's session were read and approved.

Mr. Anderson explained that he had intended to vote against the printing of the School Inspectors' reports in any but the Belleville papers, considering that sufficient publicity would thereby be given.

From W. J. Gill, County Constable, to be furnished with a pair of handcuffs for County use—Referred.

From James Barnes and others for a grant of \$500 on the road from Stoo to Marlbank—Referred to Committee on Roads.

From Wm. Grant and others, for a grant of \$200 on the second concession road in Huntington, east of lot 26—Referred to Committee on Roads.

From Wm. Brandon and others for the County road in Huntington to intersect opening on Napane Road—Referred to Committee on Roads.

NOTICE.

The General Roads Committee, that up to June 1st, the sum of \$3,811.54 had been expended on gravel roads. From the 1st to the 19th, as nearly as they could be ascertained, had been expended. After consulting all requirements they find that not less than \$11,000 will be required to complete all the gravel roads, which they deem it their duty to recommend should be made, as the roads had

been badly effected by the unusual nature of the winter and spring. It is also recommended that the following roads be paved under the superintendence of Mr. Farham: From the County to Madoe Village, via Marmora; from Madoe to Haggis's Corner; from Thompson's to the Madoe and Bridgewater roads; from Frankfort to Chisholm's Rapids; from Marysville to Lonsdale, via McCrossin; and from Corby's mill northward to the Madoe and Stirling roads.

The report was adopted unanimously.

A special report was read from Hon. Mr. Flint, Chairman of the same Committee, detailing an examination of the roads, and recommending that the portion of road in Murray be either kept up jointly by Hastings and Northumberland, or an effort made to have that portion of Murray through which the road runs annexed to Sidney—also that the Belleville and North Hastings Railway Company be requested to grade and gravel the road made by them at Hog Lake, in lieu of the old road. The report concludes with an expression of satisfaction with the care and ability of Messrs. Farham and Francis in their respective offices.

On motion of Mr. Anderson, seconded by Mr. Currie, the report was received and ordered to be read in full.

Mr. Francis objected, that the amount proposed on the road between Trenton and Frankfort is too small.

The Warden said the report had been adopted, and Mr. Francis could hereafter move for its reconsideration.

The report of the County Surveyor was read and referred to Committee on Roads.

BY-LAWS.

Mr. Pearce introduced a By-law for the adoption of a certain road in Marmora and Rawdon.

Mr. Murphy introduced a By-law to assume the portion of the old Haggis road.

Hon. Mr. Flint introduced a By-law to search for materials for County roads.

The above were read a first time.

MOTIONS.

Mr. Francis moved, seconded by Mr. Lee, that all the petitions for roads be referred to a special Committee consisting of Messrs. Pearce, White, Gaulty, Cross, Enno, Armstrong, Craig, Ashley, and the mover, and report to-morrow.

Mr. White objected to the appointment of this Committee, as the subject should be considered by the whole Council, whilst the members of the Committee live on the gravel roads and do not know the requirements of the other sections.

Mr. Peck thought it would be a saving of time to appoint the Committee.

Mr. Gordon was opposed to the motion.

Mr. Francis said his object was solely to facilitate business that he had made his motion. All members could express their opinions when the report came up.

Mr. White moved in amendment, seconded by Mr. Gordon, that the following appropriations be made on County Roads: The five northern townships \$300 each; Madoe to Allan Settlement \$300; Hazelton's Corners to Queensboro \$300; Rawdon to Stoo \$300; County Roads in Marmora \$300; County Roads in Elzevir \$300; Bogart's to Bridgewater \$300; Marlbank to Stoo \$300; Stoo to Chapman's Corners \$300; Thompson's to intersect Bridgewater road \$300; Marlbank to Chisholm's \$250; boundary between Huntington and Tyndinag \$300; leading roads in Thurlow \$300; leading roads of Huntington \$300; Stirling to Seymour \$200; Rawdon Town Hall to gravel road in Huntington \$300; Chisholm's Rapids Road to Frankfort \$300; County road on boundary between Marmora and Sidney \$300, provided interest parties give an equal amount; to each of the four incorporated villages \$100; Marysville to Lonsdale, and in McCrossin's Mill and approaches \$300; Lonsdale to boundary line of Huntington \$400; Dale's Corners to Jones' Settlement \$300; on boundary line between Tyndinag and Richmond \$250, provided other interested parties give a like sum; J. B. Russell's to Allan's Mills \$100.

Mr. Peck could not see how this was an amendment.

The Warden could not see that this would do away with the petitions put in, and it would be better to have the motions considered on their merits.

Mr. White considered that he could move his motion as an amendment by moving that all after the word "that" in the original motion be omitted.

Mr. Cross thought this motion ought to come after the report of the Committee.

Mr. Pearce wished that Mr. White's motion should be withdrawn for the present, until it was determined how much money they were going to expend.

The Warden ruled Mr. White's amendment out of order.

The names of Messrs. Van Kleeck, Gordon, Cross, and Kavanagh were added to the Committee, and the motion for its appointment was carried.

Mr. White then moved the motion above given.

Mr. White said in amendment, seconded by Mr. Armstrong, that no money be granted on County roads outside of gravel roads this year.

Mr. Cross wished more information as to what amount was to be expended—whether they could afford to expend the \$8,000 proposed.

Mr. White said if he resided in Thurlow or Sidney he would support Mr. Cross's motion, as they had all the roads needed, which were built by money borrowed a number of years ago, and which would require to be repaid by their share. There was not a dollar they could expend in Thurlow, as their every road and bridge, very newly, had been adopted by the County. Two long bridges in Thurlow cost more than all the other bridges in the county, and in Tyndinag last year the township had to pay \$200 for bridges. They had given \$80,000 to build a railway to Stoo, and yet the other townships had to pay their proportion of these money, and badly needed grants on their roads. The scheme which he proposed, Thompson and others, would be adopted. He proceeded to go over the items in detail, and concluded by expressing the belief that it would be to the general benefit of the County, and that the money sum were appropriated to Tyndinag, it was but justice, as they pay one sixth of the County taxes, and he wished justice and was prepared to give it.

Mr. Pearce moved, seconded by Mr. Kavanagh, that the motion be referred to the Committee on Roads and Bridges.

Mr. Pearce withdrew his amendment.

Mr. Pearce moved that Messrs. Enno, Cross, Lee, Peck, Anderson and the mover be a special Committee to confer with the surveyor on estimates, and report to-morrow—Carried.

THE ANNUAL MEETING OF THE STOCKHOLDERS
OF THIS INSTITUTION WAS HELD IN MONTE-
REAL, ON WEDNESDAY, THE 19TH OF JUNE, 1878,
AT TEN O'CLOCK, A.M.

The Chairman, Hon. John Hamilton, in the
Chair. Among those present, Messrs. High
Allen, and Messrs. Robert Anderson, John
Darling, Thomas Schofield, Wellington, Store,
John Johnson, H. H. Thomas Ryan, Saml.
Foster, and Messrs. G. W. C. and J. H. C. and
Directors submitted the following Report:

The Directors of the Merchants Bank of
Canada beg to lay before their constituents
the annual Annual Report. The Stock-
holders are aware that during the year
have been transacted a large number of
the whole future of the Institution.

First in importance is the legislation by
which the Capital Account of the Bank has
been increased. The main object of this
was to place the Capital on a permanently
solid basis, and enable Dividends to be
paid more liberally, with a sufficient margin
for contingencies. This has been accom-
plished by the passage of the Act.

Secondly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Thirdly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Fourthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Fifthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Sixthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Seventhly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Eighthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Ninthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Tenthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Eleventhly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Twelfthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Thirteenthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Fourteenthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Fifteenthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Sixteenthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Seventeenthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Eighteenthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Nineteenthly, it is desirable that the

Merchants Bank of Canada.

The Annual Meeting of the Stockholders
of this Institution was held in Montreal,
on Wednesday, the 19th of June, 1878,
at ten o'clock, A.M.

The Chairman, Hon. John Hamilton, in the
Chair. Among those present, Messrs. High
Allen, and Messrs. Robert Anderson, John
Darling, Thomas Schofield, Wellington, Store,
John Johnson, H. H. Thomas Ryan, Saml.
Foster, and Messrs. G. W. C. and J. H. C. and
Directors submitted the following Report:

The Directors of the Merchants Bank of
Canada beg to lay before their constituents
the annual Annual Report. The Stock-
holders are aware that during the year
have been transacted a large number of
the whole future of the Institution.

First in importance is the legislation by
which the Capital Account of the Bank has
been increased. The main object of this
was to place the Capital on a permanently
solid basis, and enable Dividends to be
paid more liberally, with a sufficient margin
for contingencies. This has been accom-
plished by the passage of the Act.

Secondly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Thirdly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Fourthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Fifthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Sixthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Seventhly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Eighthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Ninthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Tenthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Eleventhly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Twelfthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Thirteenthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Fourteenthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Fifteenthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Sixteenthly, it is desirable that the
Bank should be able to pay Dividends
more liberally than it has been able to do
in the past. This has been accomplished
by the passage of the Act.

Seventeenthly, it is desirable that the
Bank should be able to pay Dividends

"A Good Reformer" on Protection.

When opponents feel disposed to heap obloquy on those who advocate a "Protective tariff" for Canada, and to make abusive remarks, we would advise them to read the following letter and answers of the Hon. H. G. Joly, the present "Reformer" Premier of Quebec, addressed to Dr. Orton, M. P., Chairman of a Committee of the House of Commons on Agricultural Protection in 1876, and to remember the "Conservative" are not the only people who advocate such a policy. The following is Mr. Joly's reply.

QUEBEC, March 24th, 1876.

G. T. Orton, M. P., Chairman of a Committee of the House of Commons on Agricultural Protection in 1876, and to remember the "Conservative" are not the only people who advocate such a policy. The following is Mr. Joly's reply.

It is a sort of protest against the accusation of inconsistency which has been brought against me during this Session in the House of Commons and in the Press, for having given up the main plank of the platform of our Party National. We claim above all things, a consistent policy. My friends have been twisted into having given up the main plank of our Party National, but I have not given it up.

I remember correctly, you helped me in 1875 to obtain the exemption of duty for the best seed manure imported. I hope you will approve my views on the subject.

Yours sincerely,
H. G. Joly.

Mr. Joly's replies were as follows:

It is in the interest of the Dominion that we should continue to admit American produce free while Canadian products exported abroad have as heavy a tax level on it.

No, it is against the interest of Canada. I should think we should not add anything else of duty except the raw material required for our manufactures.

What duties, if any, would you impose on fruit and various grains and other agricultural products? or what guiding rule as to the imposition of duties would you advise?

A—I would respectfully recommend that we should have a tariff on all agricultural products, and that we should have a tariff on all agricultural products, and that we should have a tariff on all agricultural products.

What effect has free admission of Indian corn on the price of corn grain in your section of country?

A—We are not much affected in our part of the country, because our soil is not so fertile as to produce more than what is required to supply our own wants; but it appears to me that wherever the farmer produces more than he requires for his own use, and has a surplus for sale, he must either sell it at a low price, or he must sell it at a high price, and he must sell it at a high price, and he must sell it at a high price.

Do you advise legislation with a view to establishing and promoting in Canada the cultivation of such crops as the soil is best adapted to, and such cultivation of tobacco and flax? And what legislation would best conduce to the same?

A—The House of Commons in 1873 expressed itself in favor of exemption from duties for a certain number of years of the best raw sugar manufactured in Canada. I think that such a measure could be most efficacious for promoting that industry. True that, so far, it has not taken root in the country, but statements are made to introduce it. The difficulties are great, greater than in France, Belgium, or Germany, but I trust they will be overcome, and rely especially on that exemption from duties for a certain number of years.

As regards tobacco the tax on Canadian grown tobacco yields a very small revenue, while it adds to the cultivation. It ought to be abolished, and the tax on imported tobacco increased. We can produce very good tobacco in Canada, and we can reason why our should be exempt from the duties on tobacco imported from the United States or Kentucky. All we want is experience, which can only be acquired by practice, and so we will grow tobacco on a large scale with the present tax.

As for flax the cultivation will never be profitable without linen factories, and those who have practical knowledge of the cultivation of flax will find it is not worth profitable a linen factory in Canada under present circumstances.

Do many of the sons and daughters of farmers in your locality, whose taste or physical capacity lead them to desire other employment than farming, seek employment in the United States? If so, what are the reasons?

A—A great number of people leave our part of the country every year for the factories of the United States, and will continue to do so as long as we cannot give them work. Of course our market is too limited to employ them all; but we could give them work if we kept our markets open, which we ought to do, since the United States refuse to open their markets to us.

Does the free importation of American flour, without reciprocity, put you at a disadvantage as compared with American competitors? And if so, state reasons.

A—I think those who have grain for sale must feel it seriously.

Have you found grinding in bond convenient and practicable and fair to all parties concerned, and would you recommend it in case of the imposition of a duty on foreign wheat?

A—No.

An ad valorem duty of 20 per cent. imposed in the United States on flour and meal imported into that country, would be a heavy burden on the Canadian miller, would the establishment of discriminatory duties by the Parliament of Canada, in your opinion, be a disadvantage to you?

A—Yes.

Do you think the admission of American cattle, horses and sheep into Canada, at a 10 per cent. duty, while the United States impose a 20 per cent. duty on similar animals sent from Canada, acts unfairly against Canadian farmers? And would you recommend a similar duty to that imposed by the United States?

A—Yes.

Can the Canadian farmer stake profitably all his grain to raise his stock, or will it pay him better to buy Indian corn?

A—With a good reason of farming we ought to produce enough to feed our cattle.

A Comfortable Pension.

The *Napoleon* makes the following criticism upon the *Pictorial Gazette's* criticism upon the superannuation of Mr. Clute, in the *Ontario*, and the statement of Mr. Walter T. Ross, son of the M. P. for Prince Edward.

"It is much the better for Mr. Clute, he has now the comfortable pension of £100 a year, and according to the *Gazette's* health and strength to carry on some business, while in his heart he has the conviction that he has been a supporter who has been and may still be of a party of great importance to the country, and that he has the advantage of the true and intelligent opinion of the country as to the propriety of his pension in the old and the *Gazette's* opinion."

Upon which the *Ontario* *Commentary* comments as follows: "This is correct, of course, viewed through 'Reform' spectacles, but upon what ground does the above journal reconcile 'Reform' promises and professions of economy with the policy now pursued?"

For instance, Mr. Clute enjoys health and strength, is a public official capable of doing his duties with competence, and yet the Government deliberately gives him \$400 per annum for not working, and pays his successor the same salary Mr. Clute was getting. Thus the country pays \$400 a year for the purpose of rewarding the son of Grit M. P. Hypocrite! His name is indeed monstrous 'Reform'!

How Protection Affects Prices.

The stock argument of the Grits in defending their position on the trade question is that free trade or the throwing open of our markets to United States manufacturers, makes Canada a cheap country to live in, and the following extract from an article in the *Pittsburgh Courier*, which appears in the *Mail* of Monday, shows that the United States, with the high protection tariff which prevails in that country, is a cheaper country to live in than Canada with its protective tariff.

"The market reports gathered that food in Pittsburgh is cheap, and that it is as cheap as a bushel, better only half as much as a bushel. Who, but you, would not be glad to see the price of wheat in Pittsburgh, where good wheat is quoted at twenty-two cents a bushel, and prime hay at \$15 a ton?"

The correspondent then speaks as follows of the condition of the manufacturing industries of the city:

"It is only a few weeks since I was amid the foundries, rolling mills, and machine shops of Sheffield, and strong as is the contrast between the condition of the manufacturing industries of that city and the condition of the manufacturing industries of Pittsburgh, I am not sure that I am not inclined to say that the latter is a cheaper country to live in than the former."

BOARD OF EDUCATION. The Board will hold a special meeting this evening.

GEORGIA MINISTERS. This troupe are announced for the Opera House here on Tuesday next.

LORETTA SCHOOL. A full account of the closing exercises at this school appeared in the price list, appears in another column.

CLEANING UP.—Gangs of men under the charge of the Street Sweeper are cleaning up Front and other streets, with a view of the City putting on a trim appearance on Dominion Day.

HONORS IN CLASSES.—Amongst the pupils in St. Michael's College, Toronto, who received Honors in Classics at the recent examinations, we notice the name of M. Sweeney, Belleville, Ont.

BOY FIRED.—A lad named Shoshan killed in the river yesterday a Russian killer, measuring five, six, long. He saw the fish in shallow water and killed it, after a struggle, with a pike pole.

ARREST.—Sergeant Snider arrested, on a telegram from Kingston last night a woman who is charged with stealing a quantity of jewellery. She gives her name as Greathand, but that is only an alias, of which she is known to have several.

THE DRIVE ON THE TRENT.—We understand that the drive on the Trent from the Marmora region, has made very rapid progress, having passed Marmora and will likely reach Trenton by the first of August—a month earlier than anticipated.

PRINCE EDWARD RAILWAY.—The County Council of Prince Edward have granted an extension of time to build the Prince Edward Railway. Mr. Alexander Manning, of Toronto, is the contractor. It is expected the work will be commenced at once.

PERSONAL.—Messrs. Angus McFie and Wesley Ballen left today for New York, whither they will sail for Europe on Saturday. They propose making an extended tour on the continent. The good wishes of the Intelligencer and of many friends accompany them.

MONEY TO LOAN.—We are informed that the English and Scottish Companies, since its inauguration in Canada, have been doing a sweeping business in loaning money on real estate, and that the company is very popular with its patrons. They have appointed Mr. F. R. Palmer, Agent and Valuator for this vicinity. We congratulate both the company and Mr. Palmer on the appointment.

LATINO CORNER STORE.—We have pleasure in reminding our readers of the laying of the Corner Stone of a new Methodist Episcopal Church on the farm of Mr. Rufus Spencer, second son of Thurlow on Tues. July 9th. The ceremony is to be performed by Bishop Carman assisted by a number of other ministers according to the M. E. ritual for such an occasion. The Hon. L. Wallbridge, W. R. Aylsworth, Warden of the county, J. White Esq., M. P., S. R. Burdett Esq., besides a number of Rev. gentlemen are expected to deliver addresses. The ladies are to provide an excellent dinner in a grove hard by. Chair will be occupied by J. G. Robinson, Esq.

Seasonable Topics.

The worst liver complaint of which we have lately heard is that it costs so much to live.

This is the month of roses. Also of thornless. Likewise of bugs and bees, and the chicken-pox. Sleep with your head to the north.

The youngster, who was sent away from the table just as the party came on, went sadly up-stairs singing, "Good-bye, sweet art, good-bye."

The season for flies is at hand, and the prudent housewife now lays in a small magazine of the most approved fly paper.

Nothing is more effective in swelling the census, than feeding boys green apples. They just double 'em up, in every instance.

On the contrary, the sword is sunnier than the pen.

It appears to us that a man who won't advertise is ashamed of his business.

Those who drive in the gay carriages to see the children of those who walked yesterday.

What sort of country most needs, seems to be some sort of fruit that will tide through the winter the brief interval between the strawberry and grape-shoot peaches.

Here is an extract from a little boy's first composition: "When cats is a swain's and a blafemin and a tryn and the page and it makes a feller old frado, if he isn't a deupn with his big nose."

The Trenton Regatta.

At Trenton the *Kaisa Grey* was thirteen minutes ahead on the first round.

FROM BROCKVILLE.

Hanlan in Brockville.

BROCKVILLE, June 25.—Hanlan arrived by the *Algonquin* this morning and was met by the Mayor and a large crowd of citizens who cheered him all the way up to the Hotel. He took a row over the course this afternoon which he pronounced one of the best in the country. The course extends from R. & O. Railway dock, eastward close to the Canada shore. Lumber left Toronto by the mail boat at 2 p.m. today, he will arrive in the evening. Captain Kennedy, French and Reilly, will also arrive to-morrow.

FROM MANITOBA.

WINNIPEG, June 25.—Hugh Sutherland, Superintendent of Public Works, arrived here yesterday from inspecting the Fort Francis Canal.

The city council held a special secret meeting after the arrival of the vessel now placing here, and passed a by-law taxing it twenty-five dollars per day. This sharp practice is universally condemned.

A new paper will be shortly started at Selkirk.

The timely rain which fell yesterday will be of great benefit to the crops, which promise well.

GOOD NEWS.—Our afternoon cable despatches announced that Lord Dufferin has consented to remain as Governor-General of Canada for another year. If true, the news will be gladly received everywhere throughout the Dominion.

A SAD ACCIDENT.—A despatch from Ottawa, June 25th says: "John Finn, James Shea, Hattie Sands and Mary Welsh, of Lenoxy, were drowned to-day at Pleasant Point, Lake Ontario. They belonged to St. John's church excursion party which left here this morning."

DEATH OF ADMIRAL BACK.—The death of the distinguished Arctic navigator, Admiral Sir George Back, is announced. Sir George, who was born in 1796, commenced his career in the Royal Navy in 1808, and made his first Arctic voyage with Captain Backman in 1818. In the following year he accompanied Franklin in his overland expedition from Hudson's Bay to the Coppermine River. In 1825 he again visited the Arctic regions in company with Franklin. In 1828 he was appointed to command the expedition in search of Sir John Ross, and in 1836 was appointed to the command of the *Terror* on a voyage of discovery on the Arctic shores. From the time of his return he remained at home upon half pay. In 1857 he received both medals of the Geographical Society, and in 1859 had the honour of knighthood conferred upon him. He attained the rank of Admiral in 1867.

TEMPERANCE IN GREAT BRITAIN.—The progress which Ireland is making in habits of temperance may be inferred from the following official statement of duty paid on home-made spirits, intended for home use: In 1877 duty was paid in the United Kingdom on 29,888,176 gallons, which was 62,112 gallons less than in the preceding year. The decrease is exclusively due to Ireland. In England there was an increase of 495,101 gallons; in Scotland, an increase of 495,101 gallons. The whole number of gallons destined for consumption in England was 16,853,082; in Scotland, 6,987,189, and in Ireland, 6,247,905. It will thus be seen that England consumes less, in proportion to population, than either Scotland or Ireland. In Scotland, with a population less than Ireland, and more than a third of the quantity consumed in England. The latter country makes it up in beer, wine, and other liquors.

The Montreal Musical Jubilee.

GENERAL DISAFFECTION WITH THE JUDGES' AWARD.—THE WHOLE AFFAIR DISSEMINATED.

The feeling about the award of prizes at the musical jubilee is most intense, even among the French Canadians, who declare that the City Band is in no way entitled to the independent or first military band prize. It is noted to raise a subscription to defray the expenses of the bands brought from the west under protest. When the prize is awarded, the price of \$400 last night, the Bandmaster of the Hamilton Band refused to accept it. "You had better give this to the City Band too." All the papers denounce the prize, and express indignation at the attitude of the get-up-of the contest, which it is said was decided before even it commenced. Some people say the prize money, as far as the City Band is concerned, will never leave the hands of the principal getter up of the affair.

Among the objections raised to the award, in addition to that of lack of merit, is the fact that the winners of the military band prize, the City or Victoria Band, had never been enrolled under the military regulations; that they were simply hired by the regiment, and consequently were altogether ineligible.

The *Financiers* state that the result is an unfortunate one, and that any circumstances of the kind must not be repeated. It is the "Jubilee" was one in which Montreal as a whole had better give up the idea of simply a private commercial venture, and the decision has no such auspices should have. It has been suggested that a subscription should be taken and some fitting award given to the five bands who came so far on so fruitless an errand, and who were disappointed in their hopes to the city.

The London and Hamilton bands returned home disgusted with the whole affair. They wish now that they had done like the Queen's Own band of Toronto, and had not come at all.

A Montreal despatch to the Ottawa *Citizen* says: "It is, however, but just to give credit to Mr. Lavallee that the judges were of one mind, that he (Dr. Crozier) resigned the decision and considered the action of the judges with one exception nothing short of a scandal. It does not seem to be his mind defeat, but they wanted fair play and did not get it."

Special Notice.

A CARD.

To all who are suffering from the errors and indiscretions of young persons, I would say, early decay, loss of manhood, etc., I will send a notice that I have discovered a cure for this disease. This great remedy was discovered by a missionary in North America. Send your address to Dr. J. M. Smith, Station D, Bible House, New York City.

THE EASTERN QUESTION.

MIDNIGHT DESPATCHES.

LONDON, June 25.—A Berlin despatch states that, according to the present arrangements, the Congress, provided Turkey does not raise difficulties, will have settled the main points by the middle of July. The settlement of details will then be left to a Conference of the plenipotentiaries, and the Congress will meet again in September to ratify their acts.

A Berlin despatch says:—To-day's sitting of the Congress began at two and closed at five. Gortschakoff was not present, but received reports every quarter of an hour, and on this occasion, plenipotentiaries, who have been invited by the plenipotentiaries, to the Congress, will be admitted to the Congress. Greece will be admitted to the Congress. The Greeks lay particular stress on the Greek nationality of Janina.

A Berlin correspondent says:—The Bulgarian question may be regarded as settled. There only remain some points of detail, which it is believed will be settled in the sitting on Wednesday. At Tuesday's sitting the French plenipotentiary, who have been entrusted with remodelling the Russian amendments which England refused to accept on Monday, reintroduced them in a form acceptable to all parties. According to the French proposal the Porte will have full right to occupy the line between Bulgaria and Romania with what ever number of troops it deems necessary, but troops must in no case be stationed among the inhabitants or in the interior. The maintenance of order in Romania will be entrusted to a corps of gendarmes. It was likewise agreed, on the proposal of the French plenipotentiaries, that the inhabitants of Bulgaria and Romania shall enjoy complete civil and religious liberty. It was decided, on the proposal of England and Austria, that no change be made in existing commercial legislation without the consent of the Powers. The same correspondence states that the Russian occupation is to last nine months, after which three months will be allowed for the withdrawal of the troops. The opinion is gaining ground that the labors of the plenipotentiaries may be concluded by the 10th of July.

A despatch from Berlin reports that at Tuesday's sitting of the Congress it was decided that the Russians should withdraw from Romania in six and from Bulgaria in nine months. After their withdrawal mixed European troops will temporarily occupy the provinces of Russia has ordered, Montenegro and Serbia to arrange a compromise with Austria relative to their claims.

A Berlin correspondent states that the decision of allowing a Prince for Bulgaria has been settled.

A correspondent at Berlin hears on good authority that the Russians have with in the last few days bought three steamers at Bremer, belonging to the Hamburg American line.

The Turks declare they will not evacuate the fortress, until the treaty of peace is rectified by all the Powers.

AFTERNOON DISPATCHES.

LONDON, June 26.—A Portsmouth despatch says, orders have been received to despatch three Indian troop ships to Malta, cause considerable excitement, as it is reported these vessels will take back the Indian contingent.

A Berlin despatch says the Roumanian case is apparently abandoned by all the Powers. Britania's Cabinet will probably go over the case of Congress.

Berlin, June 26.—In course of the examination, the case of Babo, the Englishman sentenced for bribing officials to obtain places of the German fort, it was discovered he had been sentenced to ten years' imprisonment in 64 for participation in a conspiracy in favour of ex-King Francis of Naples; also that he carried a Prussian Sergeant at Metz in 77 to obtain information relative to the mobilization of Royal Engineers. He was a staunch Ultramontane and an enemy of Bismarck of Prussia and Germany.

Berlin, June 26.—Progress is making in the construction of the earthworks at the northern outlets of the Carpathians, passes also stated that certain mountain roads are being made practicable for artillery on both sides of the frontier.

Rome, June 26.—A consistory appointed for 20th July was postponed till the 10th.

LONDON, June 26.—Lord Dufferin has accepted the prolongation of his term as Governor-General of Canada.

A Bucharest despatch says, the talk about reinstating retrocession of Bessarabia is mere bubble, Russians occupying the whole of that territory.

MARSEILLE, June 26.—The Queen died this morning.

NEW YORK, June 26.—Arrived, the steamship State of Pennsylvania, from Glasgow.

NEW YORK, June 26.—In the Stewart will sent of ex-King Francis of Naples, also that he carried a Prussian Sergeant at Metz in 77 to obtain information relative to the mobilization of Royal Engineers. He was a staunch Ultramontane and an enemy of Bismarck of Prussia and Germany.

Two hundred and twenty-four Marmora arrived from Europe yesterday, and eight hundred more are shortly expected. Geo. W. Peabody, of Philadelphia, has promised to give a public library and museum building to Long Branch.

CHICAGO, June 26.—Wm. H. Vanderbilt contributes a communication to the *Times* on the subject of the depression of the money market.

He refers to the depression of the money market, the great number of bankrupt roads, and the uncertain future for all roads unless there is a change in the management, and favors a pooling plan.

He says superior natural advantages, better management and greater volume of business will necessarily keep some solvent much longer than others, but every banker must be ready to drag their own. Such a road pays nothing to its stockholders or bondholders, it has no responsibility to owners, patrons, or the public. It does not care for anything; its property deteriorates, and the country through which it runs will in the end experience the disastrous effects of its irreparable neglect. If all the trunk lines were brought to that condition, not only would immense properties be destroyed, but credit and trade would be paralyzed through every interest and every road.

He is irrepressibly angry. The pool time to avoid this. The only danger that can be urged against it is that it may establish an exorbitant precedent. This is impossible. The public have become used to very low charges, and will submit to no other. The best skill and most prudent management, and utmost good faith, cannot provide for more than barely living prices. The whole effect of the pool cannot raise or keep rates of transportation to figures high, but what most rigid economy and able management will be required to enable the companies to live. The railroads now existing, if crowded to their full capacity, could do the four times the business of the country. If there were only two rates during the year, a summer and winter one, and all shippers knew just what to expect and were uniformly dealt with, it would add immeasurably to the prosperity and stability of our commerce. All the companies, however, are based on different principles, have been violated by the local agents in their anxiety to secure business and favor friends. Under an equitable distribution of charges, this becomes very difficult and a greater sense of fairness and security prevails.

NEW YORK, June 26.—Washington special.

The Tribune says the failure of Congress to make an appropriation for the Hewgate expedition will compel the return of Capt. Tully's preliminary expedition.

NEW YORK, June 26.—Ex-Libarian Minister, informs the Tribune that the scheme to colonize Liberia from the southern states is one of the greatest frauds of this century.

The largest number of cattle ever shipped from New York at any one time will be taken to Texas, where there are nearly 600 animals.

The women who remained at the General's Hotel after it was opened to the general public, have been notified they will hereafter be charged full rates.

All companies in the Coal Combination have ordered an advance in prices from 10 to 20 cents per ton, with the exception of Lehigh Valley.

A Term of Five Years.

For Terms apply on the premises, Front Street, Belleville, C. F. SMITH, 29 dfr.

Belleville, June 26th, 1878.

To the Electors

OF WEST HASTINGS.

HAVING heard a rumor on the streets that it is not my intention to contest the Riding again for Parliamentary honors, I beg to state that such rumor is not correct. I am as at the disposal of my friends, and if they desire it, I am quite willing to accept the franchise of my friends and to represent them who feel satisfied with my course as their representative at Ottawa during the past eleven years.

I am, your obedient servant, JAMES BIRNEY, Belleville, 29th March, 1878. 27304wfr

Daily Intelligencer.

BELLEVILLE, SATURDAY, JUNE 29.

City and Vicinity.

ARRIVED.—The steamship *Paradise* passed

Fox River at 11:50 this morning.

THE CRIES.—There were but two tenants

of the cells last night, namely two young

men who had been indulging in a free fight

on Front Street.

PORTA BOS.—These intruders are be-

ginning work with a will on the potato

vine. Now is the time to salute them

with Paris green.

PRODUCE.—Mr. H. J. Sloe has left in

his office a couple of bushels of full weight

which measured 7½ inches and eight inches

respectively in length, which certainly

promises a large yield.

THE MARKET.—There was a very full

attendance on the market today, produce

being in plentiful supply. Prices continue

low, owing to the exceptionally favorable

nature of the season.

MEETINGS TO-NIGHT.—The final meeting

of the General Committee will be held in

the City Hall this evening. The Marshals

for the day will meet at the Court House

at 8 p.m.

HOT WEATHER.—The heated term, al-

though its coming was delayed much longer

than usual, seems at length to be with

us. The very lightest of summer gales is

now the most desirable, and soon there

will be a begonia to the various watering

places.

BUSINESS ARRANGEMENTS FOR MONDAY.

The regular issue of THE INTELLIGENCER

will not appear on Monday.—The stores

will close at noon.—The banks will be

closed, Dominion Day being a bank holiday.

The Post Office will be open at the

hours usual on public holidays.

CLOSED ON MONDAY.—As there is some

talk of a strike of the stores keeping open

on Dominion Day, we are requested to

state that Messrs Geo Ritchie & Co. intend

closing their establishment, with the view

of allowing their numerous employees to

enjoy the holiday.

THE HARTING ROAD.—A correspondent

writes from L'Amable: "We have very fine

weather. The crops never looked more

promising. Money is very scarce, but

not so starvation. As a general thing last

year's bread holds out well, and will see

us through harvest."

SHIPPING AT MILL POINT.—The *Echo*

gives a list of the vessels built at Mill Point

since 1871, which includes thirteen schooners

of 200 tons, capacity, two steam

tugs, the steamer *Empress of India* and two

steam yachts, one of which has not yet been

launched. In addition, six schooners and

the steamer *Alexander* were rebuilding during

the same period.

ARRIVED.—The fine new steamer *City*

of Belleville, which was expected yesterday,

arrived today. She is a very beautiful

craft, and promises to be not only the most

handsome but the most speedy steamer on

the bay. The *City of Belleville*, which has

already been fully described in these col-

umns, will commence her regular tri-

weekly trips from Belleville at once.

AN ECTYPTO SYNDICATE.—This morning a

horse owned by Alexander Smith, which

was being used in holing out, fell into

the deep water alongside the wharf. Al-

MONTREAL.

THE CHAIRMAN OF THE

PROSECUTION COMMITTEE.

MONTREAL, June 29.—The Chairman of the

Prosecution Committee gives notice that all

arches streamers, &c., across the streets

must either be raised to a height of 20 feet

or taken down.

SCHOOL HOLIDAYS.

MONTREAL, June 29.—We were led into

an error as to the date of the school holi-

days, which in this city, town and villages

wherein High Schools are situated, com-

mence on the 14th of July and end on the

31st of August.

THE ATHLETES.—MONTREAL, A. C. Reid,

Hamilton, James McGillivray, of Montreal,

John Curran, of Ottawa, and William, of

Galt, others of the athletes who are

to compete in the games here on Monday,

have arrived. The other competitors from

Hamilton, Galt, Toronto, &c., will arrive

on the midnight express.

WANTON CRUELTY.—A despatch from

Pictou says:—"During the night of the

26th inst., a valuable horse owned by Wm.

Dunbar, two miles west of Pictou, was

mutilated in a cruel manner by a man named

Briggs. The horse, an Indian of the

tongue cut off, his throat cut and several

gashes in different parts of the body.

Briggs has a mania for seeing blood and

witnessing the suffering of his victims.

Several years ago he was sent to the Pen-

itentiary for life for committing a number

of similar offences, but was released for

good conduct and had just returned home."

HOW TO SELECT FLOUR.—In selecting

four first look at its color. If it is white

with a yellowish straw-colored tint, buy it.

If it is white with a bluish cast, or with

white specks in it, refuse it. Second exam-

ine its adhesiveness, wet and knead a little

of it between your fingers, if it works soft

and sticky it is poor. Third, throw a little

lump of dried flour against a smooth sur-

face, if it falls like a powder it is bad.

Fourth, squeeze some of the flour tightly in

your hand, if it retains the shape when

the pressure that, too, is a good sign. It is

safe to buy flour that will stand all these

tests. These modes are given by all old

flour dealers, and they pertain to a matter

that concerns everybody.

HARRIS' MAGAZINE FOR JULY.—The

July number is free and easy, and illus-

trated admirably. The opening pages are

entitled "Some land marks of Old Virginia,"

has ten illustrations. *Hospitality* in New

York, with 16 illustrations, gives an

insight into hospital life in the great metrop-

olis of New York. Old Plentiful, with

illustrations of their work. The Old

Time Militia Masters of Virginia is a very

amusing sketch. Juggernaut, illustrated,

gives a history of that remarkable idol and

proceeds—Daddy Will, a story of life in

the days of slavery. In a very touching

sketch, Orlet is also a story admirably

told. "Macedon Dore," and "The Re-

turn of the Native," are novels of more

than average interest. The Magazine con-

tains a sketch of Voltaire's life and the

usual quantum of other information in history,

science, and humor.

THE ROSE-BUDS CANADIAN MONTHLY.

The people of this locality can procure

from their bookseller a copy of the first num-

ber of the new national magazine, which be-

ing the combined strength of *The Canadian**Monthly* and *Refractor*.—Again, we repeat

the old adage "in union there is strength,"

indeed a true maxim in this case. The

mechanical apparatus, far exceeds any previous

effort in Canada. Every particular in con-

struction and material is perfect, and the

experience and remarkable good taste. To

particularize the various happy points which

combine in making this periodical not only

the most and most appreciable local mag-

azine in Canada, or that has ever been

attempted here, is not our intention to give

in this notice. We can, however, say that it

is a monthly we may possibly be proud of

and compare with our nearest neighbors, and

old country parents' more experienced pro-

duction of the same class. We heartily re-

THE EASTERN QUESTION.

MIDNIGHT DESPATCHES.

LONDON, June 29.—It is

known that the Sultan has repeatedly ex-

pressed his doubts as to whether in view

of the feeling of the populace of Constantin-

ople, it was not safer to resist than to

yield. The Congress has nominated a

Committee to draw up a final report of its

proceedings. It has decided in favor of

the independence of Servia, subject, how-

ever, to a proviso for an amelioration of

the position of the Jews. At Saturday's

sitting the Montenegrin question will be

discussed. From casual remarks of Andri-

jevich it would seem he intends to resist to

the utmost even the reasonable demands of

Montenegro.

A Berlin despatch says:—"The sitting of

the Congress to-day lasted three hours.

(Gutschakoff was present. It was decided,

in accordance with the proposal of the Brit-

ish plenipotentiaries, to entrust to Austria

the task of occupying Bosnia and the Her-

zegovina in the interests of the peace of

Europe. The duration of the occupation was

not fixed, and full liberty is left to

Austria in regard to the organization of the

Provinces. It is believed, however, she

will follow the plans drawn up at the Con-

stantinople Conference. The Congress un-

animously adopted a proposal of the French

plenipotentiaries that Europe should re-

cognize the independence of Servia unless

the Serbian Jews were relieved from their

present disabilities. The Congress de-

cided to appoint a commission to examine

into the question of the agrarianization of

Servia. The agrarianization of Montenegro

will probably also be referred to a commis-

sion.

Military magazines are being constructed

at Agrin, and provision contractors order-

ed to deliver at the Agrin railway station

by the 15th July provisions for 50,000 men,

and forage for cavalry.

An Athens despatch says:—"News has

been received that a numerous body of

Turkish troops is marching in Thessaly.

The Greek Minister, fearing it will be

impossible to restrain the army if the Tur-

kish pursue the Christians to the frontier,

has resorted to the Porte.

A Belgrade despatch says:—"Front. Fadaief

has handed the Serbian Government \$600,-

000, the balance of the war expenses guar-

anteed by Russia. The proposed Austrian

occupation of Bosnia and the Herzegovina

causes universal uneasiness in Servia, and

the military preparations continue.

AMERICAN DISPATCHES.

WASHINGTON, June 29.—The exports

of merchandise over imports for the

eleven months ending May amount to \$246,-

528,192.

NEW YORK, June 29.—The *Times* Wash-

ington special says:—"The London agent at

New York reports the Italian peace terms

and declares themselves friendly. Other tele-

graphic information at the Italian bureau

shows special views on the Italian agent at

New York. It is thought the credit reports from various

quarters are intended to get up an Italian

case.

BOISE CITY, Idaho, June 29.—Tamblage,

a Bonnet murderer, was hanged near this

city yesterday. He was a native of Idaho,

and was a very dangerous criminal.

His brother, in penitentiary under

sentence for shooting three teamsters, yester-

day attempted suicide.

The Herald publishes a sworn statement

of Elias Plinkton, her present husband, and

several other persons. Elias relates that he

received \$500 for her testimony; that she

was carefully instructed what to say before

visiting statements; that though entirely

free to walk the land on a sofa when about

to enter the chamber of the returning board;

that her testimony was false; that her hus-

band was murdered and she was assassinated;

by a colored man, and that the quarrel

had nothing to do with politics.

NEW YORK, June 29.—J. K. Emmet, the

actor, had a street fight with Edward Zim-

mer yesterday, and was unable to play

last night.

Cecil W. Carr, a young journalist, is under

arrest in this city on complaint of a Boston

woman, who loaned him a thousand dollars; he

is said to be Lord Ogilvy, a son of the Earl

of Arils.

Nearly 650 sailors passengers sail for Europe

to-day. Six steamers sail, all loaded to their

capacity, considerable freight accom-

modations being left over. The grain and

shipments are much beyond the average, the

former aggregating about 22,000 bushels, and

the latter over 60,000 boxes.

AFTERNOON DISPATCHES.

LONDON, June 29.—The *Times*, in speaking

of the American views in the four-ordered

rank at the 4th July, says: The Show-

sacredness of the 4th July is not such as we are

accustomed to see in England, as they drink

their oars along the water and bucket forward,

rowing a very short stroke; and though opinions

differ considerably as to their speed, they at

present have not covered the course in less

time than the first-rate time. It is reported that

they rowed over Watkins in 17 min. 17½ sec.,</
